Historic Bridge Marketing Request

To whom it may concern,

The Arkansas Department of Transportation (ARDOT) is replacing Bridge Number M2728 (English Creek Bridge) on Highway 289 in Fulton County. This bridge was listed in the National Register of Historic Places (NRHP) in 2009. A location map and further information about the bridge is enclosed.

The Fixing America's Surface Transportation (FAST) Act, 23 USC § 144 (g)(5) states: "Any State which proposes to demolish a historic bridge for a replacement project ... shall first make the bridge available for donation to a State, locality, or responsible private entity..." As part of the mitigation process, the ARDOT is offering to donate Bridge Number M2728 to any government or entity that demonstrates a willingness to accept title for, maintain the structure in its current location or relocate it for use at another site, preserve the historic features of, and assume the financial responsibility for the continued maintenance on the structure.

Normally the ARDOT, through the Federal Highway Administration (FHWA), can reimburse costs associated with preservation up to the demolition estimate expense. However, the reimbursement funds allocated to this bridge will be exhausted during the careful dismantling and relocation process.

The construction of the replacement bridge was underway when the original sponsor opted out of accepting the bridge. As a result, the bridge may be available for reuse later this year.
