

INTEROFFICE MEMORANDUM

November 21, 2017

TO: Master Files

FROM: John Fleming, Division Head, Environmental Division 

SUBJECT: 2018 Pavement Preservation Program Projects
Multiple Job and FAP Numbers
Various Counties
Tier 1 Categorical Exclusion

After appropriate environmental review, it has been determined that the subject jobs fall under a Tier 1 Categorical Exclusion as described by the ARDOT/FHWA Memorandum of Agreement on Categorical Exclusion Documentation and Processing.

The purpose of these projects is to preserve and rehabilitate the highways. A table listing the projects, their locations, and type of work involved is attached, along with cultural resources clearances. No endangered species will be affected by the proposed projects. No Section 404 permits will be required. Public hearings will not be offered for these projects.

INTEROFFICE MEMORANDUM

April 28, 2017

TO: Job File

FROM: Jason Eads, Cultural Resources Section, Environmental Division

SUBJECT: Archeological Clearance
Job Number 110655
St. Francis Co. Line-Hwy. 77 (S)
Crittenden County

This job proposes to overlay an existing 12.2 miles of road surface with asphalt pavement on Highway 70, from Shearerville to West Memphis, in Crittenden County. A records check at the Arkansas Archeological Survey shows no sites in or near the right-of-way (ROW). No cultural indicators were found on the 1838 or 1847 General Land Office maps in or near the project. The 1936 Crittenden County road map shows several structures along the route. No recorded historic structures are shown on the AHPP structure database in or near the ROW. The project will require no new ROW. All work will be within the existing ROW and the extremely limited scope of the project does not have the potential to affect any undisturbed land surfaces or potential historic properties. This project is subject to the 1999 MOA and falls under the exempted Work Category "Resurfacing." The project is not considered an undertaking and requires no further work or Section 106 review.

TO: Job File

FROM: Jason Eads, Cultural Resources Section, Environmental Division

SUBJECT:  Archeological Clearance
Job Number 110670
Hwys. 49 & 70-
North & East (S)
Monroe County

This job proposes to overlay an existing 2.45 miles of road surface with asphalt pavement on Highway 49 and 70, in Brinkley, Crittenden County. A records check at the Arkansas Archeological Survey shows no sites in or near the right-of-way (ROW). One road, 'Little Rock to Memphis' was found on the 1843 General Land Office map that bisects Hwy. 49 and runs southwest to northeast. The 1936 Monroe County road map shows several structures along the route. No recorded historic structures are shown on the AHPP structure database in or near the ROW. The project will require no new ROW. All work will be within the existing ROW and the extremely limited scope of the project does not have the potential to affect any undisturbed land surfaces or potential historic properties. This project is subject to the 1999 MOA and falls under the exempted Work Category "Resurfacing." The project is not considered an undertaking and requires no further work or Section 106 review.

SUBJECT: Archeological Clearance
Job Number 020616
South of Back Gate-Hwy. 144 (S)
Desha & Arkansas Counties

This job proposes to overlay an existing 13.95 miles of road surface with asphalt pavement on Highway 165, from south of Back Gate, in Desha County, to the junction of Hwy. 144 south of Gillet, in Arkansas County. A records check at the Arkansas Archeological Survey shows no sites in or near the right-of-way (ROW). No cultural indicators were found on the 1831, 1833, or 1840 General Land Office maps in or near the project. The 1936 Desha and Arkansas County road maps show several structures along the route. No recorded historic structures are shown on the AHPP structure database in or near the ROW. The project will require no new ROW. All work will be within the existing ROW and the extremely limited scope of the project does not have the potential to affect any undisturbed land surfaces or potential historic properties. This project is subject to the 1999 MOA and falls under the exempted Work Category "Resurfacing." The project is not considered an undertaking and requires no further work or Section 106 review.

INTEROFFICE MEMORANDUM

November 7, 2017

TO: Job File

FROM: Richard Jenkins, Cultural Resources 

SUBJECT: Archeological Clearance
ARDOT Job Number 020663
Caney Bayou – Arkansas River (S)
Jefferson County

The Arkansas Department of Transportation proposes to rehabilitate a portion of Highway 79 in Jefferson County. No new right-of-way will be acquired.

An examination of the Arkansas Archeological Survey's (AAS) records was conducted for previously recorded archeological sites and was negative. A records evaluation at the Department of Arkansas Heritage (AHPP) for historic properties or National Register listed or eligible structures was also negative. The White Hall and Rob Roy topographic quadrangle maps were examined for cemeteries, likely historic structures, and landforms conducive to hold archeological sites along the project's route; none were found. The General Land Office map showed no cultural improvements. The 1936 Jefferson County Highway map shows numerous structures near this project.

The proposed road improvements will occur in previously disturbed areas inside the current AHTD right-of-way. No cultural resources are expected to be impacted. This project is subject to the 1999 MOA and fall under the exempted Work Category "Resurfacing." The project is not considered an undertaking and requires no further work or Section 106 review.

ARKANSAS STATE HIGHWAY AND TRANSPORTATION DEPARTMENT

INTEROFFICE MEMORANDUM

May 4, 2017

TO: Job File

FROM: Kristina Boykin, Environmental Division *K.B.*

SUBJECT: Archeological Clearance
AHTD Job Number 020664
Hwys. 167B & 270 (Sheridan) (Sel. Secs) (S)
Grant County

The Arkansas State Highway and Transportation Department proposes to mill and inlay Highways 167B and 270 at Sheridan in Grant County. No new right-of-way will be required.

An examination of the Arkansas Archeological Survey's (AAS) records was conducted for previously recorded archeological sites. No previously recorded archeological sites are located within the project area. The records check at the Department of Arkansas Heritage (AHPP) for National Register of Historic Places (NRHP) listed structures revealed five structures within or near the project area; however, these structures (GR0040, GR0043, GR0052, GR0056, and GR0067) are listed as ineligible to the NRHP. Also I examined the 1964 (Photo-revised 1984) Sheridan topographic quad map for cemeteries, likely historic structures, and landforms conducive to hold archeological sites within the Section 34 in Township 4 South, Range 13 West and in Sections 3 and 10 in Township 5 South, Range 13 West. The 1822 and 1853 General Land Office maps showed no cultural improvements or features found in the immediate vicinity of the project area. The 1936 Grant County Highway map is blacked out at the town of Sheridan. Several structures are shown on both sides of Highway 167 going north of Sheridan. No cemeteries are noted within the project area.

The proposed reconstruction will occur in already disturbed areas inside the current right-of-way. No cultural resources are expected to be impacted. This project is subject to the 1999 MOA and falls under the exempted Work Category "Reconstruction". The project is not considered an undertaking and requires no further work or Section 106 review.

Stuart W. Rogers, Director

ARKANSAS STATE HIGHWAY AND TRANSPORTATION DEPARTMENT

INTEROFFICE MEMORANDUM

January 3, 2017

TO: Job File

FROM: Richard Jenkins, Cultural Resources 

SUBJECT: Archeological Clearance
AHTD Job Number 050380
Prairie Co. Line – North (S)
White County

The Arkansas State Highway and Transportation Department proposes to rehabilitate a portion of Highway 11 in White County. No new right-of-way will be acquired.

An examination of the Arkansas Archeological Survey's (AAS) records was conducted for previously recorded archeological sites and was negative. A records evaluation at the Department of Arkansas Heritage (AHPP) for historic properties or National Register listed structures revealed two AHPP properties (WH1166, WH1167) along the project's route. These properties are outside of the APE and will not be impacted. Neither of these properties is listed on the National Register. The Jasmine topographic quadrangle map was examined for cemeteries, likely historic structures, and landforms conducive to hold archeological sites and was negative in regard to cultural features. The 1844 General Land Office map showed no cultural development near the project. The 1936 White County Highway map shows numerous structures near this project. No cemeteries were noted within the project area.

The proposed road improvements will occur in previously disturbed areas inside the current AHTD right-of-way. No cultural resources are expected to be impacted. This project is subject to the 1999 MOA and fall under the exempted Work Category "Resurfacing." The project is not considered an undertaking and requires no further work or Section 106 review.
