TO: Master Files

FROM: John Fleming, Division Head, Environmental Division

SUBJECT: Job Number 090518
FAP Number ER-0064(15)
Hwy. 377 Slide Repairs (Searcy Co.) (S)
Route 377, Section 1
Searcy County
Tier 2 Categorical Exclusion

The Environmental Division reviewed the referenced project and has determined it falls within the definition of a Tier 2 Categorical Exclusion under 23 Code of Federal Regulations, Section 771.117, and the ArDOT/FHWA Memorandum of Agreement on the processing of Categorical Exclusions. A public hearing will not be offered for this project.

The purpose of this project is to repair and stabilize areas where landslides occurred at two locations on Highway 377 in Searcy County. Total project length is 0.87 mile. Repair work will include construction of a rock buttresses to add weight to the lower portion of the hillside, concrete paving of ditches along the north side of Highway 377 to improve water drainage, and an asphalt overlay of the highway. A total of 0.07 acre of new right of way and 2.6 acres of temporary construction easement will be required for the project. A project location map is attached.

The project will not involve relocations, floodplains, prime farmlands, wetlands, underground storage tanks, hazardous materials, any environmental justice issues, or cultural resources. The State Historic Preservation Officer’s clearance is attached. This project has been determined to generate minimal air quality impacts for Clean Air Act criteria pollutants and has not been linked with any special mobile source air toxic concerns.
The official species list obtained through the US Fish and Wildlife Service’s (USFWS) Information for Planning and Consultation website lists gray bat (*Myotis grisescens*), Ozark big-eared bat (*Corynorhinus townsendii ingens*), northern long-eared bat (*Myotis septentrionalis*), Indiana bat (*Myotis sodalis*), Snuffbox (*Epioblasma triqueta*), Rabbitsfoot (*Theliderma cylindrica*) and Missouri bladderpod (*Physaria filiformis*) as species potentially affected by the proposed project. This project will not affect the Snuffbox, Rabbitsfoot, or Missouri bladderpod due to limited scope of the project, the lack of suitable habitat, and distance to known species locations. Emergency consultation, as described in regulations codified in 50 CFR 402.05(a), will be completed on the remaining species following construction. The USFWS has been notified of the slides.

The project will have a minor discharge of dredged or fill material into waters of the United States associated with the bridge; therefore, a Section 404 permit will be required. The project should be authorized by Nationwide Permit 18 for Minor Discharges as defined in Federal Register 82(4): 1860-2008.

RE:  Searcy County — General  
Section 106 Review — FHWA  
Hwy. 377 Slide Repair (S)  
Route 377, Section 1  
ARDOT Job Number: 090518  
AHPP Tracking Number: 104520

Dear Mr. Fleming:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the Project Identification Form for the above-referenced job. According to your correspondence, the undertaking entails repairing two landslides between mile markers 6.55 and 7.42 on Arkansas Highway 377. Repair methods will include clearing debris from the roadway and installing rock buttressing and concrete paving ditches. The latter will be restricted to the north side of the highway. The rock buttressing will require a temporary construction easement.

The field investigation recorded one archaelogical site proximal to the area of potential effects. The site consists of two burials dating from 1890 and 1980 surrounded by a partially collapsed wood and wire fence. There are dry-laid rock walls parallel to the north and south sides of the fence. The graves are located approximately 240 meters northwest of the APE. The proposed undertaking will not affect the burial sites.

Arkansas Department of Transportation archeologists assigned temporary site number 090518-1. The department is awaiting assignment of a state site number. Due to the urgent need to address the landslides, the AHPP agreed to review the undertaking prior to issuance of a site number. The department will forward the site number to the AHPP when it is available.

Based on the provided information, the AHPP concurs with the finding of no historic properties affected pursuant to 36 CFR § 800.4(d)(1) for the proposed undertaking.

Tribes that have expressed an interest in the area include the Absentee Shawnee Tribe (Ms. Devon Frazier), the Caddo Nation (Ms. Tamara Francis), the Cherokee Nation of Oklahoma (Ms. Elizabeth Toombs), the Osage Nation (Dr. Andrea Hunter), the Quapaw Nation (Mr. Everett Bandy), the Shawnee Tribe (Ms. Tonya Tipton), the United Keetoowah Band of Cherokee Indians.
(Ms. Erin Thompson and Charlotte Wolfe), and the Wichita and Affiliated Tribes (Mr. Gary McAdams). We recommend consultation in accordance with 36 CFR § 800.2(c)(2).

Thank you for the opportunity to review this undertaking. Please refer to the AHPP Tracking Number listed above in all correspondence. If you have any questions, please call Eric Mills of my staff at 501-324-9784 or email eric.mills@arkansas.gov.

Sincerely,

Scott Kaufman
Director, AHPP
