FAP Number NHPP-9227
Route 555, Section 3 and Route 49, Section 3
Craighead County
Tier 2 Categorical Exclusion

The Environmental Division reviewed the referenced project and has determined it falls within the definition of a Tier 2 Categorical Exclusion under 23 Code of Federal Regulations, Section 771.117, and the ArDOT/FHWA Memorandum of Agreement on the processing of Categorical Exclusions.

The purpose of this project is to improve the I-555/Hwy. 49 Interchange by adding two single-lane, 15’ wide loop ramps with 4’ wide inside shoulders and 6’ wide outside shoulders. The existing right of way width varies from 330’ to 1,540’. The proposed right of way will be 5’ to 10’ wider and 0.30 acre of new right of way will be acquired. The total project length is approximately 0.93 mile. A project location map is attached.

Design data for this project is as follows:

<th>Average Daily Traffic</th>
<th>Percent Trucks</th>
<th>Design Speed (mph)</th>

<td>55</td>

<tr>

</tr>
</tbody>
</table>
The project will not involve relocations, prime farmlands, wetlands, underground storage tanks, hazardous materials, floodplains, any environmental justice issues, or cultural resources. Concurrence from the State Historic Preservation Officer is attached.

According to the ARDOT noise policy, a noise analysis is not required for this project because it will not physically alter the existing interchange to the degree that the distance between the ramps and the closest noise receptor will be reduced by half. Additionally, ramp construction will not be completing a partial interchange.

The official species list obtained through the U.S. Fish and Wildlife Service Information for Planning and Consultation website identified Indiana bat (Myotis sodalis), Fat Pocketbook (Potamilus capax), Rabbitsfoot (Theliderma cylindrica), Scaleshell Mussel (Leptodea leptodon), and pondberry (Lindera melissifolia) as potentially occurring at or near the project location. The scope of work will have “no effect” on any species or critical habitat for any of the identified species.

No streams or wetlands will be impacted as a result of this project. No Section 404 permit will be required.

This project has been determined to generate minimal air quality impacts for Clean Air Act criteria pollutants and has not been linked with any special mobile source air toxic (MSAT) concerns.

The synopsis for the public involvement meeting held for this project on April 4, 2019 is attached.

Dear Mr. Fleming:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the Project Identification Form for the above-referenced job. The undertaking entails construction of interchange improvements and two loop ramps at the interchange of Interstate 555 and Arkansas Highway 49 in Jonesboro, Craighead County. The project will require an additional .3 acres of right-of-way (ROW) along the existing westbound exit ramp. All other work will be within the existing ROW.

Based on the provided information and the negative results of the cultural resources survey, the AHPP concurs with the finding of no historic properties affected pursuant to 36 CFR § 800.4(d)(1) for the proposed undertaking.

Tribes that have expressed an interest in the area include the Osage Nation (Dr. Andrea Hunter), the Quapaw Nation (Mr. Everett Bandy), and the Shawnee Tribe (Ms. Tonya Tipton). We recommend consultation in accordance with 36 CFR § 800.2(c)(2).

Thank you for the opportunity to review this undertaking. Please refer to the AHPP Tracking Number listed above in all correspondence. If you have any questions, please call Eric Mills of my staff at 501-324-9784 or email eric.mills@arkansas.gov.

Sincerely,

Scott Kaufman  
Director, AHPP

Craighead County
Thursday, April 4, 2019

An open forum Public Involvement meeting for the proposed interchange improvement project was held at the Temple Baptist Church (Gym), 2834 Race Street, Jonesboro, from 4:00 – 7:00 p.m. on Thursday, April 4, 2019. Efforts to involve minorities and the public in the meeting included:

- Display advertisement placed in The Sun on Sunday, March 24 and Sunday, March 31, 2019.
- Outreach letters mailed to the public and public officials.
- Flyers distributed in the project area.

The following information was available at the meeting for public review and comment:

- Displays of an aerial-based project location map (scale: 1 inch = 125 feet).
- Small-scale project location map (scale: 1 inch = 400 feet).
- Preliminary project design plans (scale: 1 inch = 100 feet).

Public handouts included a Comment Form and a small-scale project location map. Copies of these handouts are attached to this synopsis.

Table 1 summarizes public participation at the meeting.
