Arkansas State Highway Commission

The first State Highway Commission was appointed in 1913. Amendment 42 of the constitution of Arkansas, adopted in 1952, established the present five-member State Highway Commission. Under this authority, the State Highway Commission is vested with powers and duties for administering Arkansas’ State Highway System. Act 192 of 1977 created the Arkansas State responsibilities for coordinating public and private Highway and Transportation Department (AHTD), adding transportation activities and implementing a safe and efficient intermodal transportation system.

Organization and Personnel

The Central Office is in Little Rock. Ten district headquarters, 85 county area maintenance headquarters, and 31 resident engineer offices are located statewide providing consistent control over maintenance and construction activities. Streamlining efforts have reduced the AHTD’s full time workforce from approximately 4,000 in 1993 to 3,578 as of June 30, 2009.

Safety

The State Highway Commission adopted the Arkansas Strategic Highway Safety Plan in July 2007 as a planning guide for improving highway safety in the State. The Plan identified six emphasis areas recommended strategies for each emphasis area to reduce the number of fatal and serious injury crashes on the State’s roadways. A goal was established to reduce the State’s fatality rate to 1.8 fatalities per 100 million vehicle miles (MVM) traveled by the year 2010. In 2008, the state fatality rate of 1.85 fatalities per 100 MVM traveled, compared to 2.01 fatalities per 100 MVM traveled in 2007.

State Highway System

As of January 1, 2009, the state-administered highway system totaled 16,428 miles or 16.5% of the 99,812 miles of public roads in Arkansas. Nationally, the State Highway System ranks 12th in mileage and the State ranks 41st in total revenues per mile. During State Fiscal Year 2009, projects totaling approximately $415 million were let to contract for state highways.

Bridges

As of July 2009, the AHTD is responsible for maintenance, inspections and load analysis for 7,175 state-owned bridges as well as inspections and load analysis of 4,306 county-owned bridges and 922 city-owned bridges. Bridges are inspected every two years unless they have weight restrictions and/or poor conditions. These bridges are inspected at least annually and sometimes more often. Only 7% of bridges in Arkansas and 4% of the bridges on Arkansas State highways are structurally deficient compared to 12% of the nation’s bridges.

Travel

Travel across Arkansas highways, roads, and streets totaled 32 billion vehicle miles in 2009. Travel across the State Highway System totaled 25 billion vehicle miles or 78%. In 2009, over 97% of all heavy truck travel in Arkansas occurred on the State Highway System.

Consumption

Gasoline consumption was down for seven of the twelve months for FY 2009 (July 2008 to June 2009) as compared to FY 2008. Diesel consumption was down for ten of the twelve months during the same period. Overall, the consumption for the twelve-month period was relatively flat.

Consumption

Gasoline consumption was down for seven of the twelve months for FY 2009 (July 2008 to June 2009) as compared to FY 2008. Diesel consumption was down for ten of the twelve months during the same period. Overall, the consumption for the twelve-month period was relatively flat.
State Funding

Road-user revenues are generated under tax laws governing motor fuels, special motor fuels, and motor vehicle registrations. After deductions for other programs, the AHTD receives 70%, and 30% is divided equally between cities and counties. Net State Highway Department funds, including interest, in State Fiscal Year 2009 amounted to $402 million. Cities and counties divided approximately $81 million. Alternative fuels are assessed by a graduated scale based on annual registered vehicle users. Currently, an Environmental Assurance Fee of $0.003 per gallon is also collected for the Regulated Storage Tank Trust Fund. Current (6-30-09) State Motor Fuel Tax Rates per gallon are: Gasoline - 21.5¢ Diesel - 22.5¢ Liquefied Petroleum Gas - 16.5¢ Compressed Natural Gas - 5.0¢

Federal Funding

On August 10, 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted and established highway and transit programs and funding for a five year period (2005-2009). Arkansas has received an estimated average annual amount of $505 million for highway programs under the act. SAFETEA-LU has been extended through December 31, 2010.

The following taxes are levied on motor fuels per gallon with the revenues deposited in the Federal Highway Trust Fund—Federal-aid Highway Account, Mass Transit Account, and the Regulated Storage Tank Trust Fund (RSTTF):

Division also administers Federal-aid highway funds available for county roads. In State Fiscal Year 2009, 59 projects on 184.1 miles and 10 bridges were contracted at a total cost of $26.7 million.

State Aid County Road Program

The State Aid Road Division, authorized under Act 445 of 1973, administers the State Aid County Road Program. The Division also administers Federal-aid highway funds available for county roads. In State Fiscal Year 2009, 59 projects on 184.1 miles

American Recovery And Reinvestment Act

The American Recovery And Reinvestment Act of 2009 provided $379.8M to the state of Arkansas for transportation (includes funds for Transit). The funds were distributed as follows:

- Population greater than 200,000: North Little Rock/Little Rock Metro Area...$14.2M West Memphis/Marion Metro Area............$ 1.5M
- Population less than 200,000............$  77.8M
- Population less than 5,000...............$  11.9M
- AHTD Discretionary.......................$235.6M
- Transportation Enhancement............$  10.5M
- Transit.....................................$  28.4M

Public Transit

Six Federal Transit Administration programs administered by the AHTD total approximately $13 million annually. These programs are supported by the Mass Transit Account that is funded by a 2.86¢ per gallon federal fuel tax and Federal General Revenues. Act 949 of 2001 established the Arkansas Public Transit Fund, to be funded from a 5% tax on car rental rates, which generates approximately $3.5 million yearly for transit activities. The funds generated by the tax on rental cars are used to match federal funds for the purchase of public transportation vehicles, public transit equipment or facilities, and for the operation of the U.S. Department of Transportation Federal Transit Administration Assistance programs.
