INDEX	201

INTRODUCTION

This Statewide Transportation Improvement Program (STIP) for Federal Fiscal Years 2021 through 2024 has been prepared by the Arkansas State Highway Commission in response to 23 U.S.C. 135 - Statewide Planning, as continued by the Fixing America's Surface Transportation (FAST) Act.

Authorization for the listed projects may be requested for any phase of development (i.e., preliminary engineering, right of way, utilities, or construction) during Fiscal Years 2021 through 2024. Authorization for pre-construction phases may be requested in advance of the year a project is scheduled for construction to assure the project can be advertised and let to contract as scheduled in this STIP.

Performance Management

In accordance with 23 CFR 450.218, the State of Arkansas shall develop a STIP for all areas of the State. A STIP shall include, to the maximum extent practicable, a discussion of the anticipated effect of the STIP toward achieving the performance targets identified by the State in the statewide transportation plan or other state performance-based plan(s), linking investment priorities to those performance targets.

Below is a description of each of the performance areas and the anticipated effect of the STIP toward achieving the performance targets.

Safety

Arkansas has adopted an ultimate vision of Toward Zero Deaths (TZD) since 2013. With this vision, the Strategic Highway Safety Plan (SHSP) was developed that integrates the four "E's" – engineering, education, enforcement, and emergency services. It is a performance-based, data-driven, comprehensive plan that establishes statewide goals, objectives, and strategies to address safety in Arkansas. This vision and strategy is consistent with the TZD National Strategy on Highway Safety sponsored by the Federal Highway Administration (FHWA), the National Highway Traffic Safety Administration (NHTSA), the American Association of State Highway and Transportation Officials (AASHTO), and the Governor's Highway Safety Association (GHSA).

The latest SHSP was developed in 2017, which identified five critical emphasis areas ranging from driver behavior, special and vulnerable road users to infrastructure and operational improvements. Performance goals can be found in the [SHSP](#) for the following performance measures.

Federally mandated performance measures are:

- Number of fatalities
- Fatality rate
- Number of serious injuries
- Serious injury rate
- Number of non-motorized fatalities and serious injuries

In addition, the Department develops annual performance targets to support the SHSP goals in accordance with 23 U.S.C. 150. The targets are developed in coordination with the Arkansas State Police – Highway Safety Office, Metropolitan Planning Organizations (MPOs), and other stakeholders. They are submitted to FHWA in the Highway Safety Improvement Program (HSIP) report by August 31 each year.

Relevant primary emphasis areas under infrastructure and operational improvements include roadway departure, intersections, work zones, railroad crossings as well as incident management and data collection and analysis. Safety projects included in the STIP were identified to address the critical and primary emphasis areas in support of the SHSP performance goals. They were identified through a data-driven process, and are in conformance with the HSIP requirements. The data-driven process includes:

- Evaluation of the safety performance of an area
- Identification of appropriate countermeasures that would address one or more SHSP primary emphasis areas
- Determination of benefits vs. costs

These projects are intended to have a positive effect on the State's highway safety performance and moving toward achieving the performance goals identified in the SHSP. The evaluation of safety effectiveness for these projects is conducted annually through the annual HSIP report.

Transit

The Arkansas Statewide Transit Asset Management Plan, covering all rural transit agencies around the State, was completed in October of 2018. A similar transit asset management framework was used to develop the urban transit asset management plans with the exception of Rock Region Metro (RRM) and Texarkana Urban Transportation Service (T-Line). Due to the rail component of its system, RRM is classified as a Tier 1 transit provider who is responsible for developing its own transit asset management plan. T-Line receives their Section 5307 funding from Texas Department of Transportation (TxDOT) and are part of the TxDOT's statewide transit asset management plan.

The transit asset management plans assist transit agencies in identifying rolling stock, equipment, and facility needs based on the identified performance targets.

Federally mandated performance measure is:

- Useful Life Benchmark (ULB)

With the completion of the Transit Asset Management Plan, the funds in the STIP will be distributed in accordance with the plan and ULB of the assets. The projects are intended to maintain transit assets in the state of good repair. The asset condition is reported annually in the National Transit Database to Federal Transit Administration (FTA).

Infrastructure Condition

The Department currently manages the 12th largest State Highway System in the country. In order to maintain the system, the Department has developed the Transportation Asset Management Plan (TAMP) compliant with 23 CFR 515 with the goal of maintaining the system in the best possible condition for the given amount of funding available. The TAMP is risk-based and it describes the inventory and condition of the highways and bridges located on the National Highway System (NHS) in Arkansas. It also describes how the Department is managing these assets using TAM principles. Utilizing the life-cycle planning information, the TAMP assists the Department in identifying the right projects at the right times to reduce the overall cost of our assets while maintaining a safe and efficient system.

Federally mandated performance measures are:

- Percent of Interstate pavements in Good condition
- Percent of Interstate pavements in Poor condition
- Percent of non-Interstate NHS pavements in Good condition
- Percent of non-Interstate NHS pavements in Poor condition
- Percent of NHS bridges by deck area in Good condition
- Percent of NHS bridges by deck area in Poor condition

In addition, State DOTs are required to submit a biennial performance report to FHWA in accordance with code 23. U.S.C. 150 and 23 CFR part 490. Two-year and four-year targets are set in recurring four-year performance periods. Table 1 and Table 2 show the current condition and the four-year targets reported in the Mid Performance Report for the performance period from January 1, 2018 to December 31, 2022.

2020 Mid-Performance Report (IRI Only)		
	Current Condition (2020) ¹	4-year Target (2022) ²
Percent of Interstate pavements in Good condition ³	78%	79%
Percent of Interstate pavements in Poor condition	4%	5%
Percent of non-Interstate NHS pavements in Good condition	56%	59%
Percent of non-Interstate NHS pavements in Poor condition	8%	7%

¹ Condition rating based on ARDOT's 2019 HPMS pavement dataset – IRI Only
² Condition rating based on ARDOT's 2021 Projected pavement dataset – IRI Only
³ The 4-year target (2022) for Percent of Interstate pavements in Good condition based on full distress metrics is 72%.

Table 1 Pavement condition and targets in 2020 Mid-Performance Report

Out of the 16,465 centerline miles of State Highway System, there are 749 centerline miles of Interstate and 2,611 centerline miles of Non-Interstate NHS. Currently, the 2022 target for Percent of Pavement in Good condition is set to be 79% for Interstate pavements and 59% for non-Interstate NHS pavements. Both targets are set slightly higher than the current condition. These targets are set considering an increased emphasis placed on pavement preservation in the current STIP and the additional revenue from State of Arkansas Act 416 adopted in March

2019. In the current STIP, 126 centerline miles of pavement projects are programmed for Interstate highways, and 890 centerline miles of pavement projects are programmed for non-Interstate NHS roads. These projects will add 16.8% of Interstate in Good condition and 34.1% of Non-Interstate in Good condition.

2020 Mid-Performance Report		
	Current Condition (2020)	4-year Target (2022)
Percent of NHS bridges by deck area in Good condition	44.5%	42.0%
Percent of NHS bridges by deck area in Poor condition	3.6%	6.0%

Table 2 Bridge condition and targets in 2020 Mid-Performance Report

Table 2 shows the current condition and 2022 targets for NHS Bridges. The 2022 target for the Percent of NHS bridges by deck area in Good condition is set to be 42.0%, and the 2022 target for the Percent of NHS bridges by deck area in Poor condition is set to be 6.0%. Both targets are set assuming that the bridge deterioration outpaces the bridge repair and replacement. In the current STIP, only 245,000 square feet of the total deck area of the bridge replacement jobs are programmed. It will add 0.70% (by deck area) of bridges in Good condition.

In accordance with the TAMP, a number of jobs in the STIP will implement system preservation, reconstruction, or structures and approaches (another name for bridge replacement) type of work. These projects are intended to maintain highway assets in the state of good repair and achieve performance targets. With additional funding made available through various state initiatives, preservation projects are implemented expeditiously as needs are identified. The highway condition is reported annually in the Highway Performance Monitoring System (HPMS) to FHWA.

System Reliability and CMAQ

System reliability on the Interstate and non-Interstate NHS is assessed using FHWA's National Performance Management Research Data Set (NPMRDS) for travel time reliability and freight movement. Travel time reliability is defined as the ratio of a longer travel time (80th percentile) to a normal travel time (50th percentile). Roadway segments that have a travel time reliability greater than 1.5

are considered unreliable. Freight reliability is based on the truck travel time reliability index that is defined as the 95th percentile truck travel time divided by the 50th percentile truck travel time.

Federally mandated performance measures are:

- Percent of person-miles traveled on the Interstate that are reliable
- Percent of person-miles traveled on the non-Interstate NHS that are reliable
- Truck travel time reliability on the Interstate System
- Annual hours of peak hour excessive delay per capita (only applicable in the WMATS)
- Percent non-single occupancy vehicle travel (only applicable in the WMATS)
- On-Road Mobile Source Emission (only applicable in the WMATS)

2020 Mid-Performance Report		
	Current Condition (2020)	4-year Target (2022)
Percent of person-miles traveled on the Interstate that are reliable	97%	93%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	96%	92%
Truck travel time reliability on the Interstate System	1.21	1.4

Table 3 System reliability and Freight condition and targets in 2020 Mid-Performance Report

Table 3 shows the current condition and 2022 targets for System Reliability and Freight measures. The 2022 targets for the Percent of Person-Miles Traveled on the Interstate and Non-Interstate NHS that are reliable is set to be 93% and 92%, respectively. The 2022 target for Truck Travel Time Reliability on the Interstate System is set to be 1.4. All three targets are conservative considering the upcoming large construction projects in the Central Arkansas area, such as CA0602. While capacity and capital projects will eventually improve the reliability of the roadway upon completion, they do adversely affect system reliability during construction.

The Connecting Arkansas Program (CAP) has been the primary vehicle that addresses reliability. When the CAP is completed, many of the major unreliable segments around the State will be addressed.

2020 Mid-Performance Report		
	Current Condition (2020)	4-year Target (2022)
Annual hours of PHED per capita (only applicable in the WMATS)	6.7	8.00
Percent Non-SOV travel (only applicable in the WMATS)	15.9%	14.5%

Table 4 CMAQ condition and targets in 2020 Mid-Performance Report

Table 4 shows the current condition and 2022 targets for Peak Hour Excessive Delay (PHED) and Percent of Non-Single Occupancy Vehicle (Non-SOV) travel. These targets apply to the Greater Memphis area and were set jointly in coordination with the Memphis MPO, West Memphis MPO, Tennessee DOT, and Mississippi DOT through a Tri-State PM3 measures working group. ARDOT supports these targets as there are not many construction activities planned in this area between now and 2022.

In West Memphis, reducing on-road mobile source emissions is a goal and, although no specific projects are selected at this time, funds are available when applicable projects are identified. The state highways are monitored continuously to ensure a safe and efficient transportation system is provided. As needs arise, projects are identified and implemented. System performance is reported annually through the Highway Performance Monitoring System (HPMS) to FHWA.

Metropolitan Planning Organizations (MPO)

With respect to urban areas greater than 50,000 in population, projects listed in the Transportation Improvement Programs (TIPs) that have been developed by the various MPOs are hereby included as part of the overall Federal-aid Highway Program and Federal-Aid Transit Program. For additional information on projects located within a MPO Area, please contact the appropriate MPO.

Projects (including Federal Transit Administration Projects) utilizing funds set aside for rural areas were selected in consultation with the appropriate local officials.

This program includes both the Federal-aid portion and the 100% State funded portion of the State's overall highway construction program and is financially constrained in accordance with federal regulations set forth in 23 CFR Part 450. The following financial summary demonstrates current and estimated revenues to fund the STIP, while the system as a whole is being adequately operated and maintained.

Additional information regarding this program may be obtained by contacting:

NOTICE OF NONDISCRIMINATION

The Arkansas Department of Transportation (Department) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion (not applicable as a protected group under the Federal Motor Carrier Safety Administration Title VI Program), disability, Limited English Proficiency (LEP), or low-income status in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden Section Head - EEO/DBE (ADA/504>Title VI Coordinator), P. O. Box 2261, Little Rock, AR 72203, (501)569- 2298, (Voice/TTY 711), or the following email address: joanna.mcfadden@ardot.gov.

Free language assistance for Limited English Proficient individuals is available upon request.

This notice is available from the ADA/504>Title VI Coordinator in large print, on audiotape and in Braille.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

4-R	Resurfacing, Restoration, Rehabilitation and Reconstruction
AC	Advance Construction - one of several Federal-aid fund management tools designed to provide states with greater flexibility in managing Federal-aid highway funds. The primary benefit of AC is that it allows states to accelerate transportation projects using non-Federal funds while maintaining eligibility to be reimbursed with Federal-aid funds at a later date.
ARDOT	Arkansas Department of Transportation
BR	Bridge
CAP	Connecting Arkansas Program - In 2012, through a voter-approved constitutional amendment, the people of Arkansas passed a 10-year, half-cent sales tax to improve the State's transportation system, including projects that widen and improve approximately 200 miles of highways and interstates.
Capacity Improvements	Widening of existing facilities or construction of new facilities to increase capacity.
CARTS	Central Arkansas Regional Transportation Study - the Metropolitan Planning for the urbanized area in Pulaski, Saline, Faulkner, and a portion of Lonoke Counties. (See also Metroplan.)
CENG	Construction Engineering and Inspection
CHBP	Competitive Highway Bridge Program. Federal-aid grant from FHWA to provide funding that will go toward highway bridge replacement or rehabilitation projects on public roads that demonstrate cost savings by bundling at least two highway bridge projects into a single contract.
CMAQ	Congestion Mitigation and Air Quality Improvement Program. See Information on Federal Funding.
CMAQ AQ	Congestion Mitigation and Air Quality Improvement Program - air quality use only. See Information on Federal Funding.
CMAQ FLEX	Congestion Mitigation and Air Quality Improvement Program - flexible use. See Information on Federal Funding.
CR	County Road
CS	City Street
DBE	Disadvantaged Business Enterprises. See Information on Federal Funding.
Earmark	Federal funds that are designated for a particular purpose.
EFLHD	Eastern Federal Lands Highway Division of the Federal Highway Administration - a division of the USDOT that promotes administration of federal public roads and bridges; protects and enhances natural resources and provides transportation access for Native Americans.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

Eng.	Engineering
Env.	Environmental
FAST Act	Fixing America's Surface Transportation Act - this act funds the Federal Highway Program from Federal Fiscal Years (FFY) 2016 - 2020.
Federal Lands	Lands owned or administered by the Federal government. Examples are: National parks, national wildlife refuges, military reservations, federal prisons and public domain land.
Ferry Boat	Ferry Boat Program. See Information on Federal Funding.
FFY	Federal Fiscal Year - a pre-defined 12 month period from October 1 to September 30.
FHWA	Federal Highway Administration - an agency within the U.S. Department of Transportation that supports state and local governments in the design, construction, and maintenance of the Nation's transportation system.
FLAP	Federal Lands Access Program. See Information on Federal Funding.
FRONTIER	Frontier Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Crawford and Sebastian Counties. (See also MPO.)
FTA	Federal Transit Administration - an agency within the USDOT that provides financial and technical assistance to local public transit systems.
FTA-5304	Federal funding for transit system statewide planning and programming.
FTA-5305	Federal funding for transit system planning programs.
FTA-5307	Urbanized area formula grants - provides competitive Federal funding to public transit systems in urbanized areas.
FTA-5310	Federal funding for enhanced mobility of seniors and individuals with disabilities.
FTA-5311	Federal formula grant funds for transit in rural areas / populations < 50,000.
FTA-5329	Federal funds for transit safety and oversight programs.
FTA-5337	State of good repair grants - federally funded capital assistance for maintenance, replacement and rehabilitation of motorbus systems. Additionally, can be used for Transit Asset Management plans.
FTA-5339	Federal Buses and Bus Facilities Grants Program - must be "low" or "no" emission transit or equipment.
GARVEE Bonds	Grant Anticipation Revenue Vehicles (GARVEE Bonds) - a tool used by many states to finance highway projects, secured by the Federal Highway Trust Fund, to enable the acceleration of construction timelines and spread the cost of a transportation facility over its useful life.
HIP	Highway Infrastructure Program. See Information on Federal Funding.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

HIP >200K	Highway Infrastructure Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
HSATS	Hot Springs Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Garland County. (See also MPO.)
HSIP	Highway Safety Improvement Program. See Information on Federal Funding.
Improve Air Quality	Improve air quality in nonattainment areas.
INFRA	Infrastructure for Rebuilding America. Federal-aid grant from the U.S. Department of Transportation to help fund infrastructure improvements using innovative approaches to improve the processes for building significant projects, and increasing accountability for the projects that are built.
Intchg. Impvts.	Interchange Improvements - improvements to the junction between two or more roadways, typically including a grade separation and ramps.
Inters. Impvts.	Intersection Improvements - improvements to the junction between two or more roadways that meet at grade.
IRP	Interstate Rehabilitation Program - Approved by a special election (November 2011) - allowed the Highway Commission to issue up to \$575 million in GARVEE Bonds to help finance repairs and improvements to Interstates.
JATS	Jonesboro Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Craighead County. (See also MPO.)
JETS	Jonesboro Economical Transit System - provides public transportation for the City of Jonesboro.
Local	Local Funds / City or County
Major Widening	Widening of an existing roadway to improve capacity or enhance safety.
Metroplan	Metroplan is the federally designated Metropolitan Planning Organization (MPO) for central Arkansas. (See also CARTS and MPO).
Metropolitan Planning Organization	A federally mandated and funded transportation policy making organization that is made up of representatives from local government and government transportation authorities.
Miscellaneous	Any number of improvements.
MPO	See Metropolitan Planning Organizations.
NARTS	Northwest Arkansas Regional Transportation Study. The Metropolitan Planning Organization (MPO) for all of Washington and Benton Counties. (See also MPO.)

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

NEPA	National Environmental Policy Act - a federal law that requires agencies that administer federally funded projects to assess environmental effects to their proposed actions prior to constructing highways, roadways or projects in public land.
New Location	Construction of a roadway on a location not previously developed for vehicular transportation.
NHFP	National Highway Freight Program. See Information on Federal Funding.
NHPP	National Highway Performance Program. See Information on Federal Funding.
NHS	National Highway System - includes the Interstate Highway System and other roads important to the nation's economy, defense and mobility.
Off System Bridge	See Information on Federal Funding.
OJT	On-the-Job Training. See Information on Federal Funding.
Operational Improvements	Improves traffic operations on existing roadways.
P.E. or PE	Preliminary Engineering - includes surveys, environmental analysis, and design.
Partnering Project	A project that has a partnering arrangement between ARDOT and local governments and other state agencies that results in project acceleration.
Passing Lane(s)	Construction of an additional lane or lanes intended for passing on a two lane roadway.
PBATS	Pine Bluff Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Jefferson County. (See also MPO.)
Planning	Determination of existing or future needs.
Project Development	Combination of preliminary engineering, environmental analysis, design, right of way acquisition, and utility relocation activities.
Rail Hwy	Railway-Highway Crossing Program. See Information on Federal Funding.
Reconstruction	Rebuilding of an existing roadway.
Rehabilitation	Pavement restoration, patching, heat scarifying, etc., of an existing roadway.
ROW	Right of Way - acquisition of real property to make way for the construction of a highway project. Real property is a term that is used to describe land, easements, air or access rights, or the rights to control the use of land, such as leases.
RR	Railroad
RR Grade Separation	Construction of a bridge over or under a railroad track(s) at an at-grade crossing.
RTP	Recreational Trails Program. See Information on Federal Funding.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

Sealing	Application of an asphalt seal coat to an existing roadway.
Sel. Secs.	Selected Sections
SHSP	Strategic Highway Safety Plan - a Federally required statewide-coordinated safety plan for reducing highway fatalities and serious injuries on all public roads.
State	State Funds
State Local	State funds, Local funds, or a combination of the two.
STBGP	Surface Transportation Block Grant Program. See Information on Federal Funding.
STBGP >200K	Surface Transportation Block Grant Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
STIP	Statewide Transportation Improvement Program - a Federally required, financially constrained, four-year or more, list of upcoming statewide transportation projects that identifies the schedule and the funding by Federal Fiscal Year.
Str(s). & Apprs.	Structure(s) and Approaches - including, but not limited to, bridge replacement, grade separation, etc.
System Preservation	Various projects to preserve, rehabilitate, or reconstruct an existing roadway.
TAP	Transportation Alternatives Program. See Information on Federal Funding.
TAP >200k	Transportation Alternatives Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
TIP	Transportation Improvement Program - a Federally required, financially constrained, four-year or more, list of upcoming transportation projects that identifies the schedule and the funding by Federal Fiscal Year in a Metropolitan Planning Organization area.
TMA	Transportation Management Area - an area designated by the Secretary of Transportation having an urbanized area population of over 200,000 or upon special request from the Governor and the MPO designated for the area.
Transit	Projects that provide operation assistance or capital assistance such as improving or expanding local public transit systems, including buses, subways, light rail, commuter rail, or trolleys.
TUTS	Texarkana Urban Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Miller County. (See also MPO.)
U of A	University of Arkansas
Utility	Adjustment and/or relocation of utilities.
Widening	Widening an existing roadway - one or more lanes.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

WMATS West Memphis-Marion Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Crittenden County. (See also MPO.)

INFORMATION ON FEDERAL FUNDING

Federal funding for projects includes:

NATIONAL HIGHWAY PERFORMANCE PROGRAM (NHPP)

In general, the NHPP provides support for the condition and performance of the National Highway System (NHS), and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan. Restoration work on all State Highway System bridges is also an eligible use of these funds.

NATIONAL HIGHWAY FREIGHT PROGRAM (NHFP)

The NHFP is for projects that will improve the efficient movement of freight on the National Highway Freight Network (NHFN) and support several goals, including—

- Investing in infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability, and increase productivity;
- Improving the safety, security, efficiency, and resiliency of freight transportation in rural and urban areas;
- Improving the state of good repair of the NHFN;
- Using innovation and advanced technology to improve NHFN safety, efficiency, and reliability;
- Improving the efficiency and productivity of the NHFN;
- Improving State flexibility to support multi-State corridor planning and address highway freight connectivity; and
- Reducing the environmental impacts of freight movement on the NHFN.

SURFACE TRANSPORTATION BLOCK GRANT PROGRAM (STBGP)

The STBGP provides flexible funding that may be used by States for projects to preserve and improve the conditions and performance on any State highway or bridge.

A portion of these funds are set aside and sub-allocated as follows:

- **Set-asides**

Transportation Alternatives and Recreational Trails Projects (**TAP or RTP**), which provides funding for a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to storm water and habitat connectivity.

Bridges not on Federal-aid highways (**Off System Bridge**)

- **Sub-allocation**

A percentage of a State's STBG apportionment (after set-asides) is to be obligated in the following areas in proportion to their relative shares of the State's population:

- ✓ Urbanized areas with population greater than 200,000 (**STBGP>200K**)
- ✓ Areas with population greater than 5,000 but no more than 200,000 (**STBGP**)
- ✓ Areas with population of 5,000 or less (**STBGP**)

HIGHWAY SAFETY IMPROVEMENT PROGRAM (HSIP)

The HSIP funds are eligible for projects that will achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance. A portion of these funds are set aside as follows:

- **Set-asides**

Railway-Highway Crossings Program (**Rail Hwy**) which provides funding for safety improvements to reduce the number of fatalities, injuries, and crashes at public railway-highway grade crossings.

CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM (CMAQ)

The CMAQ program provides a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas).

- Sub-allocation

CMAQ Program funds dedicated to West Memphis, AR (**CMAQ AQ**) for projects to the attainment or maintenance of a national ambient air quality standard.

CMAQ Program flexible funds (**CMAQ Flex**) that may be used by States for projects to preserve and improve the conditions and performance on any State highway or bridge.

HIGHWAY INFRASTRUCTURE PROGRAM (HIP)

The HIP funds are eligible for construction of highways, bridges, and tunnels. The funds may also be obligated for the elimination of hazards and the installation of protective devices at railway-highway crossings. These funds cannot be used on roads functionally classified as minor collectors.

A portion of these funds are sub-allocated as follows:

- Sub-allocation

A percentage of a State's HIP apportionment is to be obligated in the following areas in proportion to their relative shares of the State's population:

- ✓ Urbanized areas with population greater than 200,000 (**HIP>200K**)
- ✓ Areas with population greater than 5,000 but no more than 200,000 (**HIP 5K<200K**)
- ✓ Areas with population of 5,000 or less (**HIP<5K**)

FEDERAL LANDS ACCESS PROGRAM (FLAP)

The FLAP provides funds for projects on Federal Lands Access Transportation Facilities that are located on or adjacent to, or that provide access to, Federal lands. This is a competitive grant program overseen by EFLHD for Arkansas.

FERRY BOAT PROGRAM (Ferry Boat)

The Ferry Boat Program (Ferry Boat) provides funds for the construction of ferry boats and ferry terminal facilities.

DISADVANTAGED BUSINESS ENTERPRISE SUPPORTIVE SERVICES PROGRAM (DBE)

The DBE Program's primary purpose is to provide training, assistance, and services to minority, disadvantaged, and women-owned business enterprises so as to increase their activity in the program, and to facilitate the firms' development into viable, self-sufficient organizations capable of competing for, and performing on federally assisted highway projects.

ON THE JOB TRAINING PROGRAM (OJT)

The OJT Program is funded by the Workforce Innovation and Opportunity Act and allows States to hire and train skilled workers and get reimbursed for these efforts.

INFORMATION ON GENERIC PROJECTS

- **IRP Debt Service**

Conversion of Advanced Construction NHPP funds to repay the bonds issued for the 2011 Interstate Rehabilitation Program. The 2011 Interstate Rehabilitation Program was approved by Arkansas voters in November 2011. Under this program, the Commission had the authority to issue up to \$575 million in bonds for Interstate rehabilitation to be partially repaid using NHPP funds.

- **Various Bridge Preservation**

Projects to prevent, delay or reduce deterioration of bridges or bridge elements, restore the function of existing bridges, keep bridges in good condition and extend their life. Bridge preservation actions may be preventative or condition driven.

- **Various Off-System Bridge Rehabilitation and Replacement on City Streets**

Replacement or rehabilitation of eligible bridges on city streets.

- **Bridge Inspection / Inspection Equipment**

Routine inspection of bridges and purchase of bridge inspection equipment.

- **Railroad Crossing Protective Devices / Surfacing / Hazard Elimination**

Safety improvements to reduce the number of fatalities, injuries, and crashes at public railway-highway grade crossings.

- **Various Transportation Alternative Projects**

Funded with a set-aside of STBGP program funding for transportation alternatives (TAP). Projects in this category will be approved through a competitive selection process with the solicitation of applications. These set-aside funds include a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to storm water and habitat connectivity.

- Various Trail Projects

Projects in this category will be approved through a competitive selection process with the solicitation of applications. Eligible projects include motorized and non-motorized trails and trail facilities.
- Various Resurfacing / Restoration / Rehabilitation / Reconstruction / Bridge Replacement / Bridge Rehabilitation on County Roads

Federal funds dedicated for pavement and bridge improvement projects on the County Road System.
- Various Bridge Replacement / Bridge Rehabilitation on County Roads

Federal funds dedicated for bridge improvement projects for Off System Bridges on the County Road System.
- PE / Right-of-Way / Utilities / Construction Engineering

Project development and construction management activities including surveys, environmental analysis, design, right-of-way acquisition, relocating utilities and providing construction inspection once a project is let to contract.
- Various Wildflower Programs

Funds to support ARDOT's beautification program of planting wildflowers along the State Highway System.
- Motor Fuel Enforcement Activities

Funding for ARDOT's Internal Audit Motor Fuel Tax Section to offset the cost of International Fuel Tax Agreement audits and Motor Fuel Tax audits.
- Various Statewide Safety Improvements

Improvements consistent with the state Strategic Highway Safety Plan (SHSP) that correct or improve a hazardous road location or feature or address a highway safety problem.
- Statewide Pavement Markings & Signing Projects

Upgrading pavement markings and signs to meet desired levels of retroreflectivity for driver safety.

- Workforce Training and Development

Various courses and training for workforce development and educational activities for ARDOT employees.
- Various Pavement Preservation Projects

Projects to improve ride quality and extend the life of pavements on the State Highway System. Projects may increase lane widths and/or shoulder widths to current standards.
- Various Signals and Intersection Improvements

Signalization, signal upgrades, signal coordination, and the addition of turn lanes to improve the flow of traffic through intersections.
- Various Sealing Projects

May include fog seals, chip seals, high friction surface treatments or other surface treatments on the State Highway System to improve friction and long-term performance of the pavement.
- Various Federal Lands Access Program (FLAP) Projects

Improves transportation facilities that are located on or adjacent to, or that provide access to Federal lands. This is a competitive grant program.
- Various Ferry Boat Program Projects

Restoration or construction of ferry boats and/or ferry terminal facilities. This is a competitive grant program.
- Disadvantaged Business Enterprises (DBE) Supportive Services

Provides training, assistance, and services to minority, disadvantaged, and women business enterprises to facilitate the firms' development into viable, self-sufficient organizations capable of competing for, and performing on federally assisted highway projects.
- On-the-Job Training (OJT) Supportive Services

Hire and train workers in various highway construction skills.

APPLICABLE GUIDANCE

Eligible activities for all programs can be found in the “FAST Act” guidance at the following website: <http://www.fhwa.dot.gov/fastact/factsheets/>

State Highway Projects

Sorted by Route

A red route number indicates the highway is not part of the Arkansas Primary Highway Network (APHN).

2021-2024 STIP

JOB	COUNTY	ROUTE	TERMINI	LENGTH	TYPE WORK	ESTIMATED COST (in thousands)	AGENCY CARRYING OUT THE PROJECT

Appendix A: Pavement Preservation Projects

Sorted by Route

A red route number indicates the highway is not part of the Arkansas Primary Highway Network (APHN).

Pavement preservation projects are shown for informational purposes. Actual locations are subject to change as schedules and priorities warrant. Any deviations from this list will not require a STIP Amendment.

Appendix C: Highway 82 Corridor Projects

Sorted Geographically from
Texas to Mississippi

HIGHWAY 82 CORRIDOR

Highway 82 is a 185-mile corridor that traverses the southern part of Arkansas between Texarkana, Texas and the Mississippi River. A map of the corridor can be seen below.

The Highway 82 Corridor is important to the economy of southern Arkansas. This corridor is part of the National Highway System (NHS), the Department's Arkansas Primary Highway Network (APHN), and the Department's Four-Lane Grid system. The Department has invested \$208 million on this corridor since 2011.

This STIP includes \$18 million for a bridge replacement project, \$100 million in capital improvement projects and over \$18 million of pavement preservation projects to improve the Highway 82 Corridor. We will continue to make improvements to the Highway 82 Corridor as funding becomes available.

Appendix D: Highway 412 Corridor Projects

Sorted Geographically from
Oklahoma to Missouri

Pavement preservation projects are shown for informational purposes.
Actual locations are subject to change as schedules and priorities warrant.
Any deviations from this list will not require a STIP Amendment.

HIGHWAY 412 CORRIDOR

Highway 412 in Arkansas was designated as a High Priority Corridor by Congress in the 1991 Intermodal Surface Transportation Efficiency Act (ISTEA). Portions of this 289-mile corridor are signed concurrently as Highways 62, 63 and 65. A map of the corridor can be seen below.

The Highway 412 Corridor is important to the economy of northern Arkansas. This corridor is part of the National Highway System (NHS), the Department's Arkansas Primary Highway Network (APHN), and the Department's Four-Lane Grid system. The Department has invested \$297 million on this corridor since 2011.

This STIP includes \$700,000 for a bridge replacement project, \$28 million in capacity improvement projects, \$33 million in capital improvement projects and \$49 million of pavement preservation projects to improve the Highway 412 Corridor. We will continue to make improvements to the Highway 412 Corridor as funding becomes available.
