SUBJECT: 2022 Pavement Preservation Program Projects
Multiple Jobs and FAP Numbers
Various Counties
Tier 1 Categorical Exclusion

After appropriate environmental review, it has been determined that the subject jobs are a Tier 1 Categorical Exclusion (CE) as described by the ARDOT/FHWA Programmatic Agreement on Categorical Exclusion Documentation and Processing. Public hearings will not be offered for these projects.

The purpose of these projects is to preserve and rehabilitate the highways. The attached table lists the projects, their locations, and type of work. Project location maps and cultural resources clearances are also attached. Recent funding changes have resulted in changes to the job numbers of the projects included in this Tier 1 CE. The new and previous job numbers are listed in the attached table.

The projects will not involve relocations, prime farmlands, wetlands, underground storage tanks, hazardous materials, any environmental justice issues, or cultural resources. The projects have been determined to generate minimal air quality impacts for Clean Air Act criteria pollutants and have not been linked with any special mobile source air toxics concerns.

The official species lists obtained through the US Fish and Wildlife Service’s (USFWS) Information for Planning and Consultation identified the following species as potentially occurring within the project area: gray bat (Myotis grisescens), Indiana bat (Myotis sodalis), northern long-eared bat (Myotis septentrionalis), Ozark big-eared bat (Corynorhinus townsendii ingens), Eastern Black Rail (Laterallus jamaicensis ssp. jamaicensis), Ivory-Billed Woodpecker (Campephilus principalis), Piping Plover (Charadrius melodus), Red Knot (Calidris canutus rufa), Red-Cockaded Woodpecker (Picoides borealis), Whooping Crane (Grus americana), Ozark hellbender
(Cryptobranchus alleganiensis bishopi), leopard darter (Percina pantherina), Ozark cavefish (Amblyopsis rosa), pallid sturgeon (Scaphirhynchus albus), yellowcheek darter (Etheostoma moorei), Arkansas Fatmucket (Lampsilis powelli), Curtis Pearlmussel (Epioblasma curtisii), Fat Pocketbook (Potamilus capax), Louisiana Pearlshell (Margaritifera hembeli), Neosho Mucket (Lampsilis rafinesqueana), Ouachita Rock Pocketbook (Arcidens wheeleri), Pick Mucket (Lampsilis abrupta), Rabbitsfoot (Theliderma cylindrica), Scaleshell Mussel (Potamilus leptodon), Snuffbox Mussel (Epioblasma triquetra), Speckled Pocketbook (Lampsilis streckeri), Spectaclecase (Cumberlandia monodonta), Winged Mapleleaf (Quadrula fragosa), American burying beetle (Nicrophorus americanus), monarch butterfly (Danaus plexippus), Benton County cave crayfish (Cambarus aculabrum), Hell Creek cave crayfish (Cambarus zophonastes), geocarpon (Geocarpon minimum), harperella (Ptilimnium nodosum), Missouri bladderpod (Physaria filiformis), and pondberry (Lindera melissifolia). It has been determined that this project will have “no effect” on the aforementioned federally listed species due to the limited scope of the action, lack of suitable habitat, and distance to known species locations.

The monarch butterfly is a candidate species and as such is not federally protected under the Endangered Species Act. However, The USFWS recommends agencies implement conservation measures for candidate species in action areas as these are species, by definition, that may warrant future protection under the Act. Any disturbed areas to be revegetated after construction will be seeded with a mix that includes native wildflowers as a conservation measure.

These projects will not have a discharge of dredged or fill material into waters of the United States; therefore, no Section 404 permits will be required.

Job 070507
Franklin Creek – Hwy. 278 (Warren) (S)
Route 63, Section 16
Bradley County

This job proposes to conduct the following improvements to 4.51 miles of Highway 63 in Bradley County: Mill & Overlay/Inlay and rumble strips.

This project is subject to the 2021 Programmatic Agreement and falls under Activities C and F in Appendix B. The project is exempted from further work or Section 106 review.
TO: Job File

FROM: Richard Jenkins, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 080605
Hwy. 124 – S. of Greenbrier (Sel. Secs.) (S)
Route 65, Sections 8 & 9
Faulkner and Van Buren Counties

This job proposes 14.76 miles of patching, UTBWC, and overlay on Highway 65 from Log Mile 13.80 to Log Mile 0.00 in Faulkner County, and from Log Mile 18.17 to Log Mile 17.27 in Van Buren County.

This project is subject to the 2021 Programmatic Agreement and falls under Activities B, C, and D in Appendix B. The project is exempted from further work or Section 106 review.
The Arkansas Department of Transportation (ArDOT) proposes to complete UTBWC, 2” overlay, 2’ shoulders, and various guardrail removal along log miles 9.50 to 12.87 on Highway 16 and log miles 3.25 to 27.80 on Highway 23 in Madison County. No new right-of-way (ROW) will be acquired. All work will occur within the existing roadway.

An examination of the Arkansas Archeological Survey’s (ARAS) records was conducted for previously recorded archeological sites located on or adjacent to the proposed project area. According to ARAS records, five pre-historic archeological sites (3MA0159, 3MA0150, 3MA0167, 3MA0233, 3MA0218, and 3MA0238) and five historic sites (3MA0454, 3MA0437, 3MA0272, 3MA190 and 3MA0292) were identified on and immediately adjacent to the proposed project area. Based on records check at the Arkansas Historic Preservation Program (AHPP) for NRHP properties, one previously recorded historic structure (MA0074) is an eligible culvert located within the proposed project area. This culvert does not have guardrails and will not be impacted by the guardrail disposal and removal.

In addition to checking ARAS and AHPP records, nineteenth through twentieth century maps were examined. The General Land Office plat maps of various Townships and Ranges show fields and intermittent roads nearby the project.
The 1936 Madison County map shows Huntsville and scatterings of small communities mapped within the corridor.

The proposed project will occur in already disturbed areas inside the current ROW as assessed by design plans, known construction practices, and existing infrastructure. This project, as designed, does not have the potential to affect any undisturbed land surfaces or potential cultural resources as it is confined to existing ROW. Therefore, this project falls under Appendix C, Activity 2 of the 2021 Programmatic Agreement.
