

LOCAL BRIDGE PROGRAM

OVERVIEW

ARDOT's Local Bridge Program provides Federal-aid funding for improvements to or replacement of bridges located on public roads that are off the Federal-aid Highway System, known as Off-System bridges. In order to begin the process of funding determination, a Local Public Agency (LPA) must make the funding request via letter to the ARDOT Director. The request should include the bridge's structure number, if available, and a description of the location.

ELIGIBILITY

Eligible bridges must be:

- Located on a route that is off the Federal-aid Highway System*; and
- On the National Bridge Inventory; and
- Owned by a county, town, township, city, municipality or other local agency, or federally recognized tribe.

Priority will be given to projects that will improve or replace bridges that:

- Are in poor or fair condition; or
- Are posted for weight restrictions or operationally restricted; or
- Have demonstrated safety issues.

GUIDELINES

- The annual maximum Federal-aid funding available for the Local Bridge Program will be announced each Federal Fiscal Year (FFY) and will be prioritized and awarded based on statewide needs.
- The number of projects per LPA may be limited per FFY based on availability of funds.
- All phases of approved projects will be eligible for funding. ARDOT will provide 90% Federal-aid funding and the LPA will provide the 10% local match.
- Development of approved projects will progress in two steps.
 - Step 1: Development of a feasibility study, including 30% design plans and cost estimate.
 - Step 2: Upon completion of the feasibility study and request of the LPA, project will proceed to final design and construction.
- A \$5,000 deposit is required from the LPA before initiating a feasibility study.

ON ARKANSAS PUBLIC
ROADS THERE ARE:

200+

OFF-SYSTEM BRIDGES
IN POOR CONDITION

900+

OFF-SYSTEM BRIDGES POSTED
FOR WEIGHT RESTRICTIONS
OR OPERATIONALLY RESTRICTED

Local Bridge Program projects must be requested via letter by the Local Public Agency that will serve as the project Sponsor. Once a request is received, ARDOT will evaluate the bridge to determine eligibility and notify the Sponsor via letter.

MILESTONES

- LPA requests project via letter to the ARDOT Director
- ARDOT determines project eligibility
- LPA passes project resolution and becomes the project Sponsor
- ARDOT and Sponsor execute agreement of understanding detailing roles and responsibilities
- Sponsor submits \$5,000 deposit for feasibility study
- ARDOT initiates a feasibility study which includes development of 30% design plans and cost estimate
- Sponsor reviews feasibility study
- Upon Sponsor's request, ARDOT continues project development
- ARDOT prepares final plans and cost estimate
- ARDOT coordinates with Sponsor for project advertisement
- ARDOT advertises project
- Sponsor submits funding for local share of project
- ARDOT executes construction contract
- Upon completion of improvements, Sponsor resumes responsibility and maintenance of the structure
