

**I-49 Interchange
Public Involvement
Meeting 2 Synopsis**

Highway 22 - Interstate 40

Crawford and Sebastian
Counties, Arkansas

September 29, 2022

Job No. 040748

A Public Involvement Meeting was held on Thursday, September 29, 2022, at the First Baptist Church Alma, 211 N. Mountain Grove Rd., Alma, AR. The project information was made available on the ARDOT's website from September 23, 2022, through October 14, 2022. Efforts to involve minorities and the public in the meeting included:

- Display Advertisement placed in *Southwest Times Record* and ran on September 18, 2022, and September 25, 2022.
- Public Service Announcement was placed with La Raza 92.3 and ran from September 26, 2022, through September 29, 2022.
- News Release published by ARDOT on September 22, 2022.
- Letters were mailed to Public Officials on September 9, 2022.
- Letters were mailed to Minority Leaders on September 9, 2022.
- Approximately 150 flyers were hand-delivered to residents within the constraints of the project area.
- Postcards mailed on September 16, 2022 to residents living along the Selected Alignment via the Arkansas Mailing System.

The following information and links were available on the ARDOT website:

- 1997 Final Environmental Impact Statement
- Google Maps location of in-person Public Meeting
- Project Corridor Virtual Room
- Public Meeting Notice
- Registration Form
- Project Introduction Video
- Project Location Map
- Constraints Map
- Typical Sections
- Project Design Documents
- I-49/I-40 Interchange Exhibit
- Project Timeline Exhibit
- Project Fact Sheet
- Project Fly-Through Video
- May 2018 Public Meeting Summary
- March 2022 Public Meeting Summary
- Preliminary Impacts and Benefits Table
- Project Design Updates
- Interactive project map
- Project Comment form
- Frequently Asked Questions

Copies of the public meeting notice, virtual public involvement exhibit, and comment form are attached.

Table 1 describes the results of the public participation at the meeting.

TABLE 1	
Public Participation	Totals
In-Person Registration (Residents/Public Officials)	186/32
In-Person Title VI Attendees	2
Online registration of attendance	5
Number of website viewers (English/Spanish)	842/47
In-Person Comments Received	12
Online Comments Received	5
Mailed Comments Received	3
Emailed Comments Received	2
Total Comments Received	22

ARDOT staff reviewed all comments received and evaluated their contents. The summary of comments listed below reflects the personal perception or opinion of the person or organization making the statement. The sequencing of the comments is random and is not intended to reflect importance or numerical values. Some of the comments were combined and/or paraphrased to simplify the synopsis process.

A listing of general comments concerning the proposed project follows:

- Commentors are concerned with how the plans will affect their land specifically.
- Commentors request adding an on/off ramp at Hwy. 162 for possible positive financial benefits for Alma & Kibler.
- Commentors are concerned about flooding in the following areas: Springhill Park, and Clear Creek Road.
- Multiple commentors request bike and pedestrian facilities along the bridge into Barling, as to provide safe transportation along Arkansas River. Eventually, hoping to add bike and pedestrian paths through the river valley to connect to Northwest Arkansas.
- If bike and pedestrian paths are not added originally, commentors request project team to design the bridge to leave space to add said paths later.
- Commentors request that the river bridge near Springhill Park will be built to start before the water so the hiking, biking, and running trails are not blocked. If trails are to be blocked by the road, there are requests for large culverts to allow continued freedom of movement.
- Commentors are hoping for advanced right of way acquisition process.
- Commentors request the project team to consider a bridge over I-49 at New Town Road instead of cul-de-sacs, because a bridge would improve emergency response on New Town Road to the east of I-49.
- If no bridge can be built to connect New Town Road, commentors request the design team to analyze the possibility of building Richland Road all the way from Clear Creek to New Town Road, to improve emergency vehicle response times.
- Co-owners of farm property off Westville Road are concerned with portion of property being landlocked. This portion also has a water well for irrigation purposes on it.
- Commentor wants to know how the widening of 2 to 3 lanes and shoulders/right of way is going to impact their residence on Kibler Highway, and would like that marked out to know how far back to move their trees.
- Commentors want to know if the new access road will allow any businesses to be built on the road, and if this addition will cause the wood area at the south of the Waterfront properties in question to be cleared.
- Commentor is hoping the access road be reconsidered for elimination through the Waterfront community.
- Commentor needs access, easement and right of way to their natural gas well located on the east side of I-49 Highway in 31-9-30 Crawford County.

- Commentor requests designers to consider a Hamer Lane exit, as this appears to be the only area that can sustain an industrial park in the city of Alma.
- There are concerns about using embankment instead of bridge due to flooding/safety concerns.
- Commentor proposes that ARDOT move the location of I-49 to the westside of State Highway 162, then cross Hwy. 162 in the proximity of Kibler Baptist Church, to reduce homes' impacts and reduce amount of highway needed to be constructed.
- Commentors support the project and the design changes presented at the public meeting.

Commentor	Comment	Method comment was received	Response
3. Anonymous	Using an embankment instead of a bridge is not only engineering suicide but it's trading in cream for crap. I don't know where you guys were when the river was flooded but it's a very bad move to construct an embankment instead of a bridge. What's more important money or SAFETY? Think like a driver instead of typical ARDOT	Online	<i>A hydrology and hydraulic study has been prepared for the proposed project. The study results show that the project will not have an adverse impact to the area and does not justify the use of bridge for the entire project. Bridges are being designed where necessary to avoid an adverse impact on the existing flooding conditions.</i>
4. Anita & Benjamin Wesley	I am glad we were able to attend the meeting yesterday I think the new changes are great	Online	<i>Thank you for your comment.</i>
5. Dee Bratcher	Would like to see how the widening of 2 to 3 lanes and shoulders/right of way is going to impact my residence at 29 N Kibler Highway. We planted new trees this year and based on the map at the meeting, those trees will need to be moved. I would like to have that marked out if possible so we know how far back we need to move these trees.	Online	<i>The design is still being refined, but we anticipate minor re-grading of the ditch along the west side of Kibler Highway and modifications of the existing driveway. More detailed information concerning the construction limits will be available in Spring 2023, after environmental clearance. ARDOT will then begin negotiations to acquire right of way and easements.</i>
6. Rick Prestidge	The plans I have seen for the east end of our land is subject to major flooding due to runoff of ditches and the lake that also drains into the same branch. The concerns we have now is the proposed new service road will create more flooding.	In-person Public Meeting	<i>A hydrology and hydraulic study has been done for the area in question. The study does not show any adverse impacts being caused by the new service road. The existing culvert under Clear Creek is an 8'x3.5' Single Box Culvert (SBC). It is being replaced by a bigger culvert (8'x4' SBC) which should improve the flooding situation.</i>

Public Meeting: September 29, 2022

Commentor	Comment	Method comment was received	Response
7. Mark Allen	Please consider walking/biking trails along the length of the Project – consider at least leaving property adjacent to all construction that could or might be improved at a later date for either state, county, city, or private projects to fund possible trails & connecting trails already existing. There's a lot of possibility here & in the future. Thank you!	In-person Public Meeting	<i>Thank you for your comment.</i>
8. Steve Hotz	Keep in mind the ability to add bike/walking trail to the Arkansas River Bridge so eventually the trails in the river valley can connect to those in NWA (possibly utilize the old Highway. 71 to help make that connection). Even if not added to the bridge originally, at least design the bridge so it can be reasonably added in the future.	In-person Public Meeting	<i>The I-49 Bridge over the Arkansas River Bridge will not be designed to accommodate a shared use path (SUP), or to facilitate the addition of a future SUP, in order to stay within the financially constrained budget. Should the Fort Chaffee Redevelopment Authority (FCRA) and/or others decide to construct a SUP over the river in the future, the FCRA and/or others may choose to fund and construct the SUP as a separate structure from the I-49 Arkansas River Bridge.</i>
9. Chris Keith	I'd like to propose one of the two options. 1: instead of blocking New Town Road at the interstate, build a bridge to keep New Town connected. I understand we are trying to keep cost down but 5 to 10 mins extra for emergency vehicles could make the difference between life and death. 2: If we cannot build a bridge, look at building Richland Road all the way from Clear Creek to New Town to at least cut response time down.	In-person Public Meeting	<i>Access across I-49 is provided at Clear Creek Road, ¾ mile to the north. This project does not preclude adding an overpass at New Town Road in the future, if justified by increased traffic. The project team has explored options for Richland Road, but extending it to New Town is complicated by private property that would need to be crossed.</i>

Public Meeting: September 29, 2022

Commentor	Comment	Method comment was received	Response
10. Ronnie Dehart	Please get in contact with me. No one has and by the way the plan look your wanting to take some of my land. Thanks.	In-person Public Meeting	<i>Current plans show impacts to your property although the house is outside of the proposed construction limits. The design is still being refined and ARDOT Right of Way will contact you once the right of way acquisition process begins, after the project has been environmentally cleared.</i>
11. Bryan Huff	Can't wait to see this completed. Please genuinely consider the Hamer Lane exit. It is vital to the future of Alma. It's the only area we can put in an industrial park.	In-person Public Meeting	<i>The Interstate 49 interchange locations at Gun Club and Clear Creek Roads were determined as documented in the 1997 Final Environmental Impact Statement (FEIS) and Record of Decision. Factors including traffic volumes and environmental constraints weighed heavily in those considerations. Clear Creek Road and the Kibler Interchange resulted in markedly fewer impacts. The difference in the interchange locations is 2 miles or a 2-3 minute driving difference. The re-evaluation analyzed the changes that have occurred since the 1997 FEIS and has taken into consideration public comments from meetings held in 2018 and 2022. The addition of an interchange at Highway 162 was assessed and would result in 3 additional residential relocations and substantially more impacts to the Frog Bayou floodplain. The design, field investigations, environmental analysis, and public involvement required to include an additional interchange at Highway 162 would require 9 - 12 months to complete. A new interchange at Highway 162 would require 62 acres of new right of way, and \$20 to \$30 million in costs. Due to the additional impacts, costs, and schedule delays, an additional interchange at Highway 162 will not be incorporated in to the project.</i>
12. Stacy Willinger	Please consider adding an on/off ramp at Highway 162 for possible financial impact (positive) to Alma and Kibler. Bike and pedestrian facilities along bridge with Barling would provide safe transportation across the Arkansas River for all users.	In-person Public Meeting	<i>Regarding Highway 162, see response to comment 11. Regarding bicycle and pedestrian accommodations, see response to comment 8.</i>
13. Damon Henderson	I would like to know when money is in hand to put the bridge across the river!	In-person Public Meeting	<i>Construction updates will be listed on the project website (https://www.ardot.gov/divisions/environmental/assessments/impact-statements-eis-assesments-ea/i-49-project/). Additionally, the Statewide Transportation Improvement Program (STIP) identifies funding and scheduling of transportation projects and programs is available for public review on ARDOT's website.</i>
14. Ben & Anita Wesley	Tammy Green was most helpful. Advanced acquisition.	In-person Public Meeting	<i>Thank you for your comment.</i>
15. Kyle Harp		In-person Public Meeting	<i>Thank you for your participation in this public meeting.</i>

Public Meeting: September 29, 2022

Commentor	Comment	Method comment was received	Response
16. Donnetta Smith; Angela Rhodes; Bridgett Hargis	Co-owners of farm property off Westville Rd – concerned with portion of property being landlocked. This portion also has a water well for irrigation purposes on it.	In-person Public Meeting	<i>There is a landlocked portion on the west side. The project team will discuss with ARDOT. This portion may become part of the proposed right of way. If so, ARDOT Right of Way will contact you once the acquisition process begins, after the project has received environmental clearance.</i>
17. Andrew L. Wiley	I would like to propose the ARDOT move the location of I-49 to the westside of Highway 162 then cross 162 in the proximity of the Kibler Baptist Church. There would be less homes affected and less highway to build. Not one person at any meeting has given me a plausible reason for placing the highway east of 162 and destroying the Waterfront subdivision. I am attaching a map for my proposed route.	In-person Public Meeting	<i>This segment of Interstate 49 has been studied since the 1990s. Multiple corridors and alignments were evaluated as documented in the 1997 FEIS. The current alignment was selected based on consideration of environmental, engineering, cost, and public input. The proposed project follows the Selected Alignment from the 1997 FEIS and Record of Decision. If the alignment were to shift to the west as proposed, environmental impacts would still be present due to the need for the interchange at Highway 162. The impacts that would be present, found using the general shape of the current right of way needed for the necessary Highway 162 interchange, Potential impacts include notable and approximate residential displacements within the Kibler city limits along Highway 162, as well as displacement of the District 7 fire station, multiple churches, and other businesses. In addition, the proposed alignment would impact a larger area within the city of Kibler. The proposed alignment would impact approximately 2.5 miles within Kibler compared to the Selected Alignment which would impact 0.5 miles. These impacts would span the length of approximately 2.5 miles, as compared to the current approximate 0.5 mile impact forecasted in the Selected Alignment. Further, there would be anticipated waters and wetlands impacts, and impacts to archeological sites would also remain. From an engineering perspective, an interchange at Clear Creek Road along the proposed alignment would result in geometric challenges such as ramps being too close to existing Thornhill Street and Alma Drive, potentially requiring both parallel roadways to be realigned away from the new interchange.</i>
18. Philip Bagby & LeAnn Hackler	We are the owners of Tract C-59 (in name of LeAnn Hackler), just north of Clear Creek Road in Kibler near the southbound 1-49 exit onto Clear Creek. We are asking ArDot to consider modifying its present plans and to shorten the planned service road and cul-de-sac running north from Clear Creek Road to stop short of coming onto our tract. We submit both	E-mailed to ARDOT	<i>ARDOT has noted this comment and communicated via email with this resident about these issues in September 2022.</i>

Commentor	Comment	Method comment was received	Response
<p>Continued Comment: 18. Philip Bagby & LeAnn Hackler</p>	<p>public-interest and private-interest reasons for this request. Public Interest: There is a water saturation issue in our front yard, where the road and cul-de-sac would be located. We have seen aerial photographs from the Oil and Gas Commission of our property in the 1990s and the early 2000s, showing heavy forestation on our property at that time. But at some time after the property was cleared for the yard and to build the house in 2003, the property began to have major subterranean water issues. Although only one ditch seems to be apparent on the photographs, there are actually two parallel ditches that run diagonally from southwest to northeast across our property. The one that is closer to the house is not as visible from aerial photographs or topographic maps, but that is the one that carries the most subsurface water. And, over that ditch is the path where the service road and cul-de-sac would be placed. Right now, with the recent drought conditions, the water table is low and the ground is dry and solid. In fact, our pond is the lowest it has ever been since construction in</p>

Comment Period: September 23, 2022 – October 14, 2022
Public Meeting: September 29, 2022

Commentor	Comment	Method comment was received	Response
<p>Continued Comment: 18. Philip Bagby & LeAnn Hackler</p>	<p>2003. But the yard is typically much soggy, and just last year, we had to replace the culvert under our driveway because of the amount of subterranean shift due to the water (that is, the culvert support washed out from subsurface water flow). Also, there are several artesian springs (and probably a larger aquifer) that bubble up in our front yard. We have over-planted Bermuda grass seed to absorb as much of this water as possible. However, we are concerned that if the green area is covered with concrete or asphalt, the roadway would become a maintenance headache for ArDot, and could eventually lead to a total collapse due to the subterranean washout. Personal Interest: Our personal reason for asking that the cul-de-sac stop short of our property has to do with our family security. I have been a lawyer for over 30 years, and while I have been very successful and fortunate in my practice, that also means that there are many people who were on the other side of those cases who are not so happy with me. For that reason, our home is situated at the end of an 800-foot-long paved driveway (our access</p>

Commentor	Comment	Method comment was received	Response
<p>Continued Comment: 18. Philip Bagby & LeAnn Hackler</p>	<p>easement is the West 50 feet of Tract C-54), and where it the driveway meets our property, there is a security gate to control entry onto our property. We also have a 4-foot barbed-wire fence around the perimeter of the property. With this secured entry in mind, I am able to keep my wife and children as safe as possible. However, as currently planned, the service road would be a public-access road and would come well onto our property, and the cul-de-sac would be within 50 feet of our front porch.. In such a situation, it would be impossible for me to maintain the secure integrity of our property, and would be unable to ensure the safety of my family.. And that, from a security point of view, would effect a total taking of our property. Thus, for the public interest and also the private interest reasons set out above, we respectfully ask that ArDot consider shortening the service road and stopping the cul-de-sac at the property immediately to our south (Tract C-54), which is already being acquired in connection with this project. Thank you. Philip Bagby</p>

<p>19. Gary and Barbara Cooper</p>	<p>First, thank you for holding the meeting in Alma on September 29. Barb and I would like to comment on a few things. When we built in the neighborhood in 2006 we were the only ones here besides the landlord across the street to the north and his son next door to the east. Since then, we have watched the growth of Waterfront from a front row seat. The uncaring attitude nature of the construction teams developing the neighborhood has been extreme. The trash, speeding and loud vehicles have been just a few of the issues. Based on your maps online, we will have construction traffic on Waterfront in front of our home. Construction behind our home on Clear Creek Road with the exit ramp and now ... access road directly behind our property. Our question is why the new access road? What is the purpose of it? Will this allow any businesses to be built on the road? Will this addition cause the wood area at the south of our property to be cleared? This wood area is a refuge to a small deer herd that we have enjoyed for years. Also, the timber serves as a buffer to noise and allows some privacy to</p>	<p>Mailed to ARDOT</p>	<p><i>The proposed road would provide access to the four adjacent properties, avoiding landlocking them. Three of the properties are residential and the one at the end of the cul-de-sac is wooded. This project will not require tree clearing along the south side of your property. Your property is outside the limits of this project. The proposed ROW line is about 30' from the SE corner of your property and runs from the southwest to northeast. Tree clearing will be necessary east of the proposed right of way line.</i></p> <p><i>This segment of Interstate 49 has been studied since the 1990s. Multiple corridors and alignments were evaluated in the 1997 FEIS and the current alignment was selected based on consideration of environmental, engineering, cost and public input. The proposed project follows the Selected Alignment from the 1997 FEIS Record of Decision.</i></p>

<p>Continued Comment: 19. Gary and Barbara Cooper</p>	<p>our property. All being planned, the serenity of our home and our peaceful lifestyle we built here to enjoy is about to take a terrible hit. Probably a major stretch, but will there be any further reconsideration on the overall project location? If the project was ½ a mile to the east, would it not be in an unpopulated area of Waterfront and Clear Creek road? At least, could the access road be reconsidered for elimination?</p>		
<p>20. Dennis Gilstrap Crawford County Judge</p>	<p>Please consider a bridge over I-49 at New Town Road instead of cul de sacs. Reason! Industrial Park to Elm Street to New Town Road is a straight line Rd from Van Buren, east to west, to Yostown Road. This would become a high traffic road with future development. A bridge would also speed up emergency response on New Town Road to the east of I-49. We are very excited about I-49 becoming a reality.</p>	<p>E-mailed to ARDOT</p>	<p><i>Access across I-49 is provided at Clear Creek Road, ¾ mile to the north. This project does not preclude adding an overpass at New Town Road in the future, if justified by increased traffic.</i></p>

21. Wesley Clay Warnock	I have lived in Alma all my life. I worked in real estate for over 31 years and as technology began to advance I chose not to try to keep. I have worked as a lobby host for chick-fil-a for the past 7 years. I have deep and sincere love for Alma and Crawford County and I truly believe this project will be so good for the local economy as well as providing one of much needed arteries south to north. Transportation is vital to a strong economy. Thanks for all of your efforts.	Mailed to ARDOT	<i>Thank you for your comment.</i>
22. Larry Crawford	I need access, easement, right of way, to our natural gas well located on the east side of the I-49 Highway in 31-9-30 Crawford County.	Mailed to ARDOT	<i>Access to your gas well will be verified during the negotiations to acquire right of way.</i>

RESPONSES

Comments:

Would like to see how the widening of 2 to 3 lanes and shoulders/right of way is going to impact my residence at 29 N Kibler Hwy. We planted new trees this year and based on the map at the meeting, those trees will need to be moved. I would like to have that marked out if possible so we know how far back we need to move these trees.

If any of your comments or questions are about a specific location, please search, zoom, and/or pan the map. You can then add a pin by selecting the location that relates to your comment or question.

Please upload any files you feel would add to your comments/questions/concerns addressed in the above questions.

Comments: The plans I have seen for the east end
of our land is subject to major flooding due
to run off of ditches and the lake that also
drains into same branch. the concerns we have
now is the proposed new service road will create
more flooding.

Comments: Please consider Walking/Biking Trails
along the length of the Project
- Consider at least leaving property adjacent
to all construction that could or MIGHT
be improved at a later date for either
state, county, city, or private projects
to fund possible Trails & connecting
Trails already existing. There's a lot
of possibility here & in the future
Thank You!
Mark S. Allen

Comments: Keep in mind the ability to
Add BIKE/WALKING TRAIL TO THE ARKANSAS
River Bridge so eventually the trails
in the River Valley can connect to
those in NWA (possibly utilize the
old Hwy 71 to help make that
connection).

Even if not added to the bridge
originally, at least design the bridge
so it can be reasonably added in
the future.

Comments: I'd like to propose one of two options.
1. Instead of blocking Newtown Road at the interstate,
build a bridge to keep Newtown connected.
I understand we are trying to keep cost down but
5 to 10 mins extra for emergency vehicles could
make the difference between life and death.
2. If we cannot build a bridge, look at building
Richland road all the way from Clear Creek
to Newtown to at least cut response time down.

Comments: I would like to propose that the Ardot move
the location of I-49 to the westside of STATE
Hwy 162 then cross 162 in the proximity
of the Kibler Baptist Church. There would be
less homes affected and less highway to build.
Not one person at any meeting has given me
a plausible reason for placing the highway
east of 162 and destroying the WATERFRONT
Subdivision. I am attaching a map for my
proposed route.

Andrew L. Wiley COMMENT FORM

PROJECT LOCATION MAP

Highway 22 to I-40 (Arkansas River) (I-49)
Sebastian and Crawford Counties, Arkansas

Philip Bagby (Comments addendum)

RE: Job 040748, I-49. Thank you for the opportunity to add a comment on this project.

We are the owners of Tract C-59 (in name of LeAnn Hackler), just north of Clear Creek Road in Kibler near the southbound I-49 exit onto Clear Creek. We are asking ArDot to consider modifying its present plans and to shorten the planned service road and cul-de-sac running north from Clear Creek Road to stop short of coming onto our tract. We submit both public-interest and private-interest reasons for this request.

Public Interest:

There is a water saturation issue in our front yard, where the road and cul-de-sac would be located. We have seen aerial photographs from the Oil and Gas Commission of our property in the 1990s and the early 2000s, showing heavy forestation on our property at that time. But at some time after the property was cleared for the yard and to build the house in 2003, the property began to have major subterranean water issues. Although only one ditch seems to be apparent on the photographs, there are actually two parallel ditches that run diagonally from southwest to northeast across our property. The one that is closer to the house is not as visible from aerial photographs or topographic maps, but that is the one that carries the most subsurface water. And, over that ditch is the path where the service road and cul-de-sac would be placed.

Right now, with the recent drought conditions, the water table is low and the ground is dry and solid. In fact, our pond is the lowest it has ever been since construction in 2003. But the yard is typically much soggy, and just last year, we had to replace the culvert under our driveway because of the amount of subterranean shift due to the water (that is, the culvert support washed out from subsurface water flow). Also, there are several artesian springs (and probably a larger aquifer) that bubble up in our front yard. We have over-planted Bermuda grass seed to absorb as much of this water as possible. However, we are concerned that if the green area is covered with concrete or asphalt, the roadway would become a maintenance headache for ArDot, and could eventually lead to a total collapse due to the subterranean washout.

Personal Interest:

Our personal reason for asking that the cul-de-sac stop short of our property has to do with our family security. I have been a lawyer for over 30 years, and while I have been very successful and fortunate in my practice, that also means that there are many people who were on the other side of those cases who are not so happy with me. For that reason, our home is situated at the end of an 800-foot-long paved driveway (our access easement is the West 50 feet of Tract C-54), and where it the driveway meets our property, there is a security gate to control entry onto our property. We also have a 4-foot barbed-wire fence around the perimeter of the property. With this secured entry in mind, I am able to keep my wife and children as safe as possible.

However, as currently planned, the service road would be a public-access road and would come well onto our property, and the cul-de-sac would be within 50 feet of our front porch. In such a situation, it would be impossible for me to maintain the secure integrity of our property, and I would be unable to ensure the safety of my family. And that, from a security point of view, would effect a total taking of our property.

Thus, for the public interest and also the private interest reasons set out above, we respectfully ask that ArDot consider shortening the service road and stopping the cul-de-sac at the property immediately to our south (Tract C-54), which is already being acquired in connection with this project.

Thank you.

Philip Bagby

VAN BUREN, AR 72956

Email: dgilstrap@crawford-county.org

Comments: PLEASE CONSIDER A BRIDGE OVER I-49 AT
NEWTOWN ROAD INSTEAD OF CUL DE SACS.

REASON: INDUSTRIAL PARK TO ELM STREET TO NEWTOWN RD
IS A STRAIGHT LINE RD FROM VAN BUREN, EAST TO WEST,
TO YOBSTOWN ROAD. THIS WOULD BECOME A HIGH TRAFFIC
ROAD WITH FUTURE DEVELOPEMENT.

A BRIDGE WOULD ALSO SPEED UP EMERGENCY
RESPONSE ON NEWTOWN ROAD TO THE EAST
OF I-49.

WE ARE VERY EXCITED ABOUT I-49 BECOMING
A REALITY.

THANKS, DENNIS GILSTRAP

Email: Coop4522@gmail.com

Comments: FIRST, thank you for holding the meeting
in Alma on September 29th. BARB & I
would like to comment on a few things.
When we built in the neighborhood in 2006
we were the only ones here besides the landlord
across the street to the north and his son next
door to the east. Since then we have watched
the growth of waterfront from a front row
seat. The uncaring attitude nature of the
construction teams developing the neighborhood
has been extreme. The trash, speeding &
loud vehicles have been just a few of the issues.

Based on your maps online, we will have
construction traffic on water front in front
of our home. Construction behind our home
on Clear Creek road with the exit ramp and now
is a paved access road directly behind our property.

Our question is why the new Access road?

What is the purpose of it?

Will this allow any businesses to be built on the road?

Will this addition cause the wood area at the south of our property to be cleared?

This wood area is a refuge to a small deer herd that we have enjoyed for years.

Also, the timber serves as a buffer to noise and allows some privacy to our property.

All being planned, the serenity of our home and our peaceful lifestyle we built here to enjoy is about to take a terrible hit.

Probably a major stretch, but will there be any further reconsideration on the overall project location? If the project was $\frac{1}{2}$ mile to the east, would it not be in a unpopulated area of Waterfront and Clear Creek Road?

At least, could the access road be reconsidered for elimination?

Respectfully,

Darryl & Barbara Cooney

WHAT: Public Involvement Meeting to discuss the proposed revised design plans for the development of I-49 between Hwy. 22 and I-40 in Sebastian and Crawford counties.

WHEN: Thursday, September 29, 2022
4:00 p.m. to 7:00 p.m.

WHERE: First Baptist Church Alma
(Family Life Center)
211 N. Mountain Grove Rd.
Alma, AR 72921

At the website location, select the public meeting of your interest.

Link to project information:

www.ardot.gov/publicmeetings

Comment Form Availability:

Friday, September 23, 2022 – Friday, October 14, 2022, until 4:30 p.m.

Sponsor: Arkansas Department of Transportation (ARDOT)

Special communication or accommodation needs under the Americans with Disabilities Act (ADA) may contact Ruby Jordan-Johnson at 501-569-2379 or email environmentalmeetings@ardot.gov. The hearing or speech impaired, may contact the Arkansas Relay System at (Voice/TTY 711). Requests should be made at least 4 days prior to the public meeting.

NOTICE OF NONDISCRIMINATION: The Arkansas Department of Transportation complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion (not applicable as a protected group under the Federal Motor Carrier Safety Administration Title VI Program), disability, Limited English Proficiency (LEP), or low-income status in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden Section Head - EEO/DBE (ADA/504/Title VI Coordinator), P. O. Box 2261, Little Rock, AR 72203-2261, (501) 569-2298, (Voice/TTY 711), or the following email address: joanna.mcfadden@ardot.gov

Free language assistance for Limited English Proficient individuals is available upon request.

This notice is available from the ADA/504/Title VI Coordinator in large print, on audiotape and in Braille.

Job 040748

Violence online can make matters worse

Experts say the digital trail can inspire copycats

N'dea Yancey-Bragg and Cady Stanton
USA TODAY

Hours after the start of a deadly shooting rampage in Memphis last week, police finally got a tip that would prompt a citywide lockdown and eventually lead to an arrest: The gunman was on Facebook Live threatening to hurt people.

The violence across Tennessee's second-largest city that left four dead and three injured is the latest example of why advocates have been pushing tech companies since the 2019 mass shooting in Christchurch, New Zealand, to draft policies against livestreamed attacks and quickly scrub the videos from their platforms.

Although a spokesperson for Facebook said the content from Memphis was flagged and removed even before police warned the public about the posts, what appeared to be video taken by the shooter was not hard to find online in the following days.

Psychologists and online-extremist researchers told USA TODAY that the digital trail of evidence left by violent criminals can inspire copycats in the dark corners of the internet, and exacerbate the trauma of both the community and a country already facing a massive mental health crisis.

"I've been having the same conversation for the last decade," said Desmond Upton Patton, a University of Pennsylvania professor who studies the impact social media has on mental health and violence for people of color. "We need to pay close attention to it, we need to devote resources to it, we need to study it, we need to intervene."

The 'copycat effect'

When a crime occurs on a livestream, some viewers will flag it, allowing moderators to review and remove it.

By the time that happens, however, copies have typically already been made and moved to other platforms – some of which don't have an easy way to report violent content, said Megan Squire, a computer scientist who uses data science techniques to understand extremist online communities.

Police officers work an active shooter scene in Memphis, Tenn., on Sept. 7. Authorities said a man drove around the city shooting at people during an hours-long rampage that forced frightened people to shelter in place.

MARK WEBER/AP IMAGE

"There's kind of a strange subculture of people that enjoy having and watching that content," Squire told USA TODAY. "It's like a currency."

Squire said videos of the Memphis shooting already have been archived and shared by sites that both generally collect gore, and by racist groups using it for political purposes.

It's not just mass shooters who are livestreaming their crimes.

In 2017, four Chicago youths appeared to beat and torture a disabled student while streaming on Facebook Live. Months later, dozens of people watched on Facebook Live, but didn't call police, as a group of men sexually assaulted a 15-year-old girl.

Those who livestream acts of violence may be chasing a brief, dark status of notoriety, and participating in acts of exhibitionism, said N.G. Berrill, a forensic psychologist.

"It's a way of almost flexing one's muscles and differentiating yourself from the crowd," Berrill said.

Berrill, executive director of the New York Center for Neuropsychology & Forensic Behavioral Science, also warned that others considering acts of violence may be inspired by such images and videos as they become more accessible.

The gunman who opened fire at a Tops grocery store in Buffalo, New York, in May while streaming on Twitch claimed to have found inspiration from the Christchurch shooting spree.

He described in writing how he watched the New Zealand gunman's live video from Facebook and copied it by broadcasting his own rampage, the New York Times reported.

He chose Twitch because the platform allowed footage of the 2019 terror attack in Halle, Germany, to remain on servers for an hour, according to his statement.

"There's a pretty strong copycat effect," Squire said.

"The evidence would show that they definitely serve to inspire people ... You don't want to inspire future crimes and you don't want to normalize the ones that already happened."

The casual nature with which the

Memphis shooter went about talking and livestreaming before gunning down people in various locations demonstrates how crimes can be made to look simple and replicable, Berrill said.

"I think it makes it look easier, I really do, if you're not right there, and you're not experiencing the horror," he said.

"It would be seductive if you're that sick and vulnerable ... the horror of these events are sanitized."

The 'vicarious trauma' of coverage

For the communities terrorized by the initial violence – as well as onlookers around the country – livestreams and media coverage of shootings typically only compound the horror.

"It is humiliating that someone would treat human life so shallowly and be in your community, and perhaps be killing your neighbors or someone you know, and elevating it ... as a perverse form of entertainment for people to watch," Berrill said.

After the Buffalo shooting, Wayne Jones told the Associated Press he found out his mother, 65-year-old Celestine Chaney, was killed when someone sent him a clip of the livestream.

His girlfriend said she reported nearly 100 Facebook pages in one day because pictures and videos from the livestream kept appearing on her feed.

"You couldn't escape it; there was nowhere you could go," Danielle Simpson said at the time.

The images can also cause "vicarious trauma" for viewers who have experienced gun violence in their own lives, said Patton, the Pennsylvania professor. Nearly 60% of adults said they or someone they care about has experienced gun violence, according to a 2018 survey conducted by SurveyUSA.

And research shows gun violence can take a toll on more than just direct witnesses and survivors. Mass shootings were cited as the most common source of stress among American adults in a 2019 survey by the American Psychological Association after shootings in El Paso, Texas, and Dayton, Ohio.

Roxane Cohen Silver, a professor of psychology science, medicine and public health at the University of California, Irvine, and her colleagues have studied the impact of media consumption following the Sept. 11 terror attacks, the Boston Marathon bombing and the Pulse nightclub shooting in Florida, and found a "cycle of distress."

"The more people engage with that media, the more likely they are to be distressed and the more distressed they are, the more likely they are to engage in media surrounding the next tragedy," Silver said.

OPEN HOUSE NOTICE OF PUBLIC MEETING

WHAT: Public Involvement Meeting to discuss the proposed revised design plans for the development of I-49 between Hwy. 22 and I-40 in Sebastian and Crawford counties.

WHEN: Thursday, September 29, 2022

Legal cases, IV difficulties complicated hours before warrant expired

Evan Mealins and Brian Lyman
Montgomery Advertiser
USA TODAY NETWORK

The U.S. Supreme Court Thursday night cleared Alabama to execute Alan Eugene Miller by lethal injection, days after a lower court said the state could execute him only by nitrogen hypoxia.

At 9:20 p.m., prison officials said they'd been given the go-ahead by the state Attorney General's office to begin proceedings. Media, family members who were off-site and attorneys were expected to be brought to the death chamber of Holman Correctional Facility in Atmore to witness the execution.

But the state ran out of time. ADOC Commissioner John Hamm early Friday morning said prison staff could not establish intravenous access to deliver a lethal injection. As the time drew closer to midnight, Miller's execution was called off, Hamm said.

At 12:31 a.m., Hamm said Miller was alive and back in his prison cell. He did not provide further details as to Miller's condition.

"Due to the time constraints resulting from the lateness of the court proceedings, the execution was called off once it was determined the condemned's veins could not be accessed in accordance with our protocol before the expiration of the deadline," Hamm said.

No witnesses, reporters or attorneys were present as ADOC staff tried to set the IV line, but a judge has ordered the state to allow Miller's attorneys to visit him to document evidence of any injuries he may have sustained.

Friday afternoon, U.S. District Judge R. Austin Huffaker Jr. ordered the Alabama Department of Corrections to allow attorneys for Miller to visit him during two-hour periods on Friday afternoon and Saturday morning.

Huffaker also ordered DOC to preserve physical evidence from the execution attempt and communications among DOC staff on Thursday evening.

Miller's attorneys filed an emergency motion for visitation earlier that morning, saying Miller suffered "injuries from the attempted execution that can and should be photographed and/or filmed."

From a preliminary injunction on Monday that stayed Miller's execution, to the moment media witnesses learned that prison officials themselves had called off the execution, here's a timeline of key events in the Alan Eugene Miller case:

Miller sentenced to death for killing three men in 1999

Miller was sentenced to death for the killing of three men in two workplace shootings in Shelby County in 1999. Prosecutors said an employee entering Ferguson Enterprises in Pelham saw Miller exit the building on Aug. 5, 1999, before finding Lee Holdbrooks and Scott Yancy dead inside.

Miller then drove to nearby Post Airgas, where he had previously worked, and killed employee Terry Jarvis, prosecutors say. The jury deliberated for 20 minutes before finding Miller guilty and recommended the death penalty, which a judge imposed.

Miller seeks a preliminary injunction over nitrogen hypoxia election form

Miller, 57, in August filed suit against Hamm, Alabama Attorney General Steve Marshall and Holman Correctional Facility Warden Terry Raybon, seeking an injunction to stop his execution by lethal injection.

He maintained that he chose to be executed by nitrogen hypoxia in 2018 because he is afraid of needles and had prior experience working with chemicals. He accused state officials, who say they have no record of his election, of losing a form he says he submitted to prison staff in which he chose death by nitrogen hypoxia.

In a hearing on Sept. 12, state Deputy Attorney General James Houts said the state was "very likely" to be prepared to execute Miller by nitrogen hypoxia on his scheduled Sept. 22 execution date. Prison officials backed away from that claim after U.S. District Judge R. Austin Huffaker Jr. demanded that the state say with certainty whether it would be able to use nitrogen hypoxia by that date.

On Sept. 19, Huffaker issued a preliminary injunction prohibiting the state from executing Miller "by any method other than nitrogen hypoxia" until further court order.

State appeals ruling that effectively postpones Miller's execution

Marshall filed an appeal with the 11th U.S. Circuit Court of Appeals. In a reply brief, Miller's attorneys called the state's attempt to overturn

The American flag is seen behind barbed wire at Holman Correctional Facility in Atmore, where death row inmate Alan Eugene Miller was expected to be executed by lethal injection Thursday. BRIAN LYMAN/ADVERTISER

the preliminary injunction "last minute" and said that any delay in Miller's execution is "entirely a consequence of Appellant's failures." They argued that the district court's judgment shouldn't be reversed as 11th Circuit precedent reserves such decisions for cases of "clear abuse of discretion" by the district judge.

The Alabama AG's office accused Miller of "inexcusable delay" and argued that Miller's allegations that the Department of Corrections lost his form to opt into nitrogen hypoxia — which they did not concede — should not factor into the court's decision.

"Miller tries to run from his pleadings, but they leave no doubt that he alleges nothing more than a species of common-law negligence," the filing said. "And because injuries inflicted by governmental negligence are not addressed by the United States Constitution, ... Miller's claim cannot succeed."

The AG's office also argued that there was no evidence Miller submitted a form. 11th Circuit Judges Adalberto Jordan and Robin Rosenbaum, both appointed by President Barack Obama, wrote that there was also no evidence he did not.

"The officials at Holman chose not to keep a list or log of those inmates who submitted election forms, and the State cannot now blame Mr. Miller for that institutional decision," they wrote. "What the state is asking for is blind acceptance of its position that Mr. Miller did not submit a timely election form because he had no corroborating evidence that satisfied the state."

The three-judge panel on Thursday afternoon upheld Huffaker's order, ruling that the Alabama AG's office had not shown that the lower court abused its discretion in blocking the execution.

11th Circuit Judge Robert Luck, appointed by President Donald Trump, dissented, arguing the state had records from at least 50 death row inmates who chose execution by nitrogen hypoxia.

"It may be, as the district court found, that Miller did, in fact, timely elect nitrogen hypoxia as his method of execution. But without an election form or contemporaneous documents showing an election — like the state had for every other death row inmate that elected nitrogen hypoxia — the state had a rational reason to treat Miller differently," Luck wrote.

Federal courts have been largely unsympathetic to arguments from inmates that the process was flawed. Last October, Alabama executed Willie B. Smith for the 1991 murder of Sharma Ruth Johnson after the U.S. Supreme Court and the 11th U.S. Circuit Court of Appeals rejected arguments from Smith's attorneys that the inmate's intellectual disabilities meant he did not understand he could choose death by nitrogen hypoxia.

In January, attorneys for death row inmate Matthew Reeves, convicted of the 1996 murder of Willie Johnson, also argued that Reeves' intellectual disabilities prevented him from understanding his choice. The 11th Circuit initially stayed Reeves' execution but was overruled by the U.S. Supreme Court. Reeves was executed by lethal injection on Jan. 21.

State makes final appeal to U.S. Supreme Court

Late Thursday afternoon, the Alabama AG's office filed an application to the U.S. Supreme Court to vacate the stay of Miller's execution, requesting a ruling from the court by 7 p.m., CDT, on Thursday.

In the 43-page appeal, the AG's office argued that Miller should have sought legal recourse earlier and that his re-

quest for an injunction was a way to delay his death sentence. "Because nitrogen hypoxia is not currently available as a method of execution in Alabama, the injunction is an effective commutation of Miller's death sentence," Marshall wrote.

The AG's office said the district court that issued the injunction prohibiting his execution by any method other than nitrogen hypoxia "badly abused" its discretion. It also argued that Miller's claims of the state's negligence, by failing to properly keep a record of those who elected nitrogen hypoxia, did not amount to a constitutional deprivation.

"Miller has therefore alleged, at most, that ADOC was insufficiently careful with handling his method-of-execution form. But [t]he guarantee of due process has never been understood to mean that the State must guarantee due care on the part of its officials," the AG's office wrote.

Three-and-a-half hours after the state appealed to the U.S. Supreme Court, Miller's attorneys filed a response.

His attorneys noted that the state had shifted its strategy, focusing not on the court's factual findings of whether Miller timely elected nitrogen hypoxia in writing — the district judge thinks it is likely he did — but on the fact that the state does not have his form and feels the evidence provided was not sufficient.

"The State's new, Kafkaesque argu-

ment in favor of forcing an illegal execution tonight is that the truth of whether Mr. Miller timely submitted his nitrogen hypoxia election form does not matter," the attorneys wrote.

Miller's attorneys also noted that the state's request to the Supreme Court — to vacate the preliminary injunction — was different than its earlier request to the 11th Circuit to stay the injunction. However, a stay or vacatur of a preliminary injunction would have the same effect, practically: Miller's execution by lethal injection.

"Mr. Miller will be executed, and there is every reason to believe he will be executed soon. All he asks is that the State respect the choice the legislature gave him: to die by nitrogen hypoxia instead of lethal injection," Miller's attorneys wrote.

Supreme Court votes 5-4 to allow execution to proceed

Just after 9 p.m. Thursday, the U.S. Supreme Court cleared Alabama to execute Miller by lethal injection. By 9:20 p.m., an ADOC spokesperson told reporters that the Alabama AG's office had given prison officials the OK to proceed. "It's a go," she said she was told.

Public Meeting Notice

(60 Seconds)

ANUNCIO PUBLICO !!!

El Departamento de Transporte de Arkansas (ARDOT) llevará una reunión de Participación Pública para discutir los planos de diseño ya revisados para la propuesta de mejorar la Autopista I-49, entre la Autopistas Hwy. 22 y la I-40 en los Condados de Sebastian y Crawford

La reunión será el **Jueves 29 de Septiembre** de 4:00 a 7:00 de la tarde, en la Primera Iglesia Bautista de Alma en el Family Life Center, ubicado en el 211 N. Mountain Grove Road en Alma.

Dicha reunión será abierta al público, y para ver exhibiciones, hacer preguntas y ofrecer comentarios...ingresando a la información del proyecto en línea en www.ardot.gov/publicmeetings.

Sus comentarios se aceptarán hasta las 4:30 de la tarde del Viernes 14 de Octubre del 2022.

Este fue un mensaje de **La Raza 92.3 FM** y el Departamento de Transporte de Arkansas. Gracias

Public Meeting Notice

(60 Seconds)

The Arkansas Department of Transportation (ARDOT) will conduct a Public Involvement Meeting to discuss the proposed revised design plans for the development of I-49 between Hwy. 22 and I-40 in Sebastian and Crawford Counties.

The meeting will be held on Thursday, September 29, 2022 from 4:00 p.m. to 7:00 p.m. at the First Baptist Church Alma (Family Life Center), located at 211 North Mountain Grove Road in Alma.

This will be an “open house” meeting with no formal presentations. The public is invited to visit anytime during the scheduled hours to view exhibits, ask questions, and offer comments. Project information may be accessed online at www.ardot.gov/publicmeetings.

Comments will be accepted until 4:30 p.m. on Friday, October 14, 2022.

This has been a message from La Raza 92.3 FM and the Arkansas Department of Transportation.

I-49 Project

The Arkansas Department of Transportation (ARDOT), in cooperation with the Federal Highway Administration (FHWA), is progressing to the next phase of project development for the reconstruction of Interstate 49 I-49 from Highway 102 to Highway 101 in Clark County, a length of approximately 14.4 miles. This section was originally part of a larger corridor environmental study. The study extended from Highway 102 to Highway 101 near Alton, Arkansas encompassing approximately 105 miles. The proposed I-49 Corridor is part of a congressionally designated Right-of-Way Corridor (ROWC) running from Developer's Location in Kansas City, Missouri, to West Environmental Impact Statement (EIS) was prepared and a Record of Decision was issued in December 1997 which selected multiple corridors, evaluated multiple alignments within qualified corridor and ultimately identified and approved a Selected Alignment. For a view of this four-lane highway in western Arkansas.

The next phase of project development will include completing and obtaining agency approvals for the re-evaluation of the ROWC, preparing required agency construction permits, and developing final design and construction plans for a four-lane facility from Hwy 102 to I-49.

In 2018, an I-49 Alternative Delivery Study was conducted which evaluated alternative project delivery methods and toll feasibility for the project. The study was selected by the Arkansas State Highway Commission in November 2018 and determined that tolling was not a viable option. A public meeting was held in April 2018. Materials presented included the project location, schedule, potential environmental impacts, tolling, and project alternatives. Over 200 attendees at this meeting and 63 comments received. An additional Public Meeting was held in April 2022. Materials presented included the project location, schedule, environmental constraints, and project alternatives. There were 244 attendees and 33 comments were received after this public meeting. ARDOT received comments regarding both public meeting comment periods from citizens, public officials, and public agencies, and the majority of comments from each meeting support the proposed I-49. Based on the review of public feedback, the project team has been working on how to better design and environmental studies for the Selected Alignment. Continued outreach including public involvement meetings and agency coordination will be part of the ongoing activities.

Please use the registration form at the bottom of this page to join our mailing list.

Step 1: Thank you for your interest in this public participation meeting!
So that we can keep you informed about future meetings related to this project, please fill out the registration form.

Step 2: Please review the introductory presentation video regarding the project.
This video will describe the project and provide information about the new new hybrid public meeting process.

Step 3: Please review any project exhibits, the website, and other information provided. This will help with your understanding of the project and aid in generating any questions or comments you may have. We want to hear from you and we value your input. We look forward to seeing you at the in-person component of this public involvement meeting. Should you have any questions please contact us on email, by telephone, or attend the in-person public involvement meeting. Contact information can be found below in the Frequently Asked Questions section of this website.

Step 4: Attend the open house, in-person public involvement meeting. It will be held on Thursday, September 29, 2022, from 4:00 pm until 7:00 pm. The open house meeting will be held at the First Baptist Church's Family Life Center in Abbe. The location address is 211 North Main Street, Abbe, TX 77001. Call us at 281.792.3222 for meeting location and directions. If you are unable to attend the in-person meeting, all exhibits and contact information is provided on the project website. Please contact us with any questions you may have.

Step 5: Agency thank you for participating. Your comments can be submitted several ways. You can easily submit them online through October 14, 2022 at 4:00 pm. We desire and look forward to hearing from you. We appreciate you taking your time to provide us with your written comments. These comments are one of the most effective ways of having your concerns addressed and questions answered.

PROJECT HISTORY

- **This proposed project was originally part of a larger U.S. 71 environmental study.**
- **The proposed I-49 Corridor is part of a congressionally designated High Priority Corridor (HPC) running from Shreveport, Louisiana to Kansas City, Missouri.**
- **A Final Environmental Impact Statement (FEIS) was prepared, and a Record of Decision was issued in December 1997, which ultimately identified and approved a Selected Alignment for a new location, four-lane highway in western Arkansas.**

PROJECT HISTORY

- **In 2018, I-49 Alternative Delivery Study evaluated alternative project delivery methods and toll feasibility for the project**
 - **Arkansas State Highway Commission adopted the study in November 2018**
 - **Tolling was determined not to be a viable option**
- **Public meetings were held in April 2018 and March 2022**
- **Majority of comments at both meetings support this section of I-49**

PROJECT PURPOSE

The purpose of this project is to improve system linkage for a north/south national interstate corridor, accommodate safe travel, and improve connectivity.

PROJECT DETAILS

TYPICAL SECTION

- **New location facility**
- **Four-lane, divided facility with 12-foot lanes (two in each direction)**
- **6-foot inside and 10-foot outside shoulders**
- **Design speed for mainlanes is 70 miles per hour**

TYPICAL SECTION

RIVER BRIDGE TYPICAL SECTION

- **New river bridge facility**
- **Four-lane, divided facility with 12-foot lanes (two in each direction)**
- **6-foot inside and 10-foot outside shoulders**

TYPICAL SECTION

CROSS STREETS AND CREEKS BRIDGE TYPICAL SECTION

- **New bridge facility over cross streets and creeks**
- **Four-lane, divided facility with 12-foot lanes (two in each direction)**
- **6-foot inside and 10-foot outside shoulders**

PROJECT DETAILS

SELECTED ALIGNMENT

- **Generally, follows alignment from the 1997 FEIS**
- **Interchanges are proposed at:**
 - **Highway 22**
 - **Gun Club Road**
 - **Clear Creek Road**
 - **Fully directional interchange at I-40**

PROJECT DETAILS

PROJECT UPDATES

- Updates to Project design since the March 2022 Public Meeting include:
 1. Construct 2,700' embankment instead of bridge in river valley
 2. Added SB turn lane on SH 59
 3. Added Westville Overpass
 4. Added driveway and box culvert across Mays Branch
 5. Reduced length of improvements along Clear Creek
 6. Extend box culvert to replace existing box culvert across Henry St.

PROJECT DETAILS

ENVIRONMENTAL

- **Re-evaluation of 1997 FEIS underway**
- **Major known constraints include**
 - **Springhill Park**
 - **Fort Chaffee Military Reservation**
 - **Various wetland and water features**
 - **Old Wire Road**
 - **1 railroad crossing**
 - **Farmland**
 - **Various crossings of the 100-year floodplain**
- **A detailed constraints map can be viewed on the project website.**

Note: Detailed map can be viewed on the project website

PROJECT DETAILS

ENVIRONMENTAL

- A table has been prepared that summarizes the impacts and benefits.
- While every effort has been made to minimize negative impacts during the project development, and additional efforts have been made during the detailed design, there is not an alignment that avoids all impacts.
- The Selected Alignment best maximizes the benefits from the project while minimizing the negative impacts to the greatest extent possible.

PRELIMINARY IMPACTS & BENEFITS	
Highway 22 - I-40 (Arkansas River) (I-49) Sebastian and Crawford Counties, Arkansas	
Job 040748	
Resource Categories	Preliminary Impacts and Benefits within Project Footprint
Right of Way	1,546 acres within project footprint. Exact impact numbers to be determined as project advances through detailed design.
Residential Relocations	21
Commercial Relocations	0
Community Impacts	No disproportionately high adverse impacts anticipated to environmental justice populations, improved access, improved travel times, 0 impacts to public facilities, impacts to community cohesion at Waterfront Park neighborhood and at Clear Creek Road.
Wetlands/Waters	Permanent fill impacts are approximately 12 acres (20,430 linear feet) to water features and approximately 31 acres to wetland features. Impacts to be revised as project advances through detailed design.
Floodplain	No net rise in 100-year floodplain for Arkansas River. Preliminary study indicates less than 1 foot rise at Frog Bayou at I-49/I-40 interchange. Appropriate coordination with local floodplain administrator and FEMA to be determined based on more detailed design.
Farmland	1,027 acres within the project footprint. Coordination with Natural Resources Conservation Service required.
Habitat	<ul style="list-style-type: none"> • Forest: Approximately 344 acres within project footprint • Pasture: Approximately 631 acres within project footprint • Herbaceous: Approximately 55 acres within project footprint • Sapling/Shrub: Approximately 55 acres within project footprint Exact impact numbers to be determined as project advances through detailed design
Threatened and Endangered Species	Species within project footprint - effect calls are preliminary and will be finalized after coordination with U.S. Fish and Wildlife Service: <ul style="list-style-type: none"> • Gray Bat - Not Likely to Adversely Affect • Indiana Bat - Not Likely to Adversely Affect • Northern long-eared bat - Not Likely to Adversely Affect • Ozark big-eared bat - Not Likely to Adversely Affect • Eastern black rail - Not Likely to Adversely Affect • Piping plover - Not Likely to Adversely Affect • Red knot - Not Likely to Adversely Affect • American burying beetle - Not Likely to Adversely Affect • Scaleshell mussel - No Effect or Not Likely to Adversely Affect • Geocarpon minimum (succulent plant) - No Effect • Monarch butterfly - Not Likely to Adversely Affect • Missouri bladderpod - No Effect
Regulated Facilities	1 natural gas wellhead - requires plug and abandonment.
Noise	Minor noise impacts anticipated. One potentially feasible and reasonable noise wall in the southeast corner of the I-40 interchange will be studied further.
Air Quality	None anticipated. Crawford and Sebastian Counties are in attainment for all National Ambient Air Quality Standards.
Visual	Minor impacts to the existing visual harmony are anticipated at Springhill Park, Alma Drive, Waterfront Rd., and Harmer Road.
Section 4(f) Springhill Park	No feasible and prudent avoidance alternative. Impacts to 4 visual and noise impacts; mitigation includes re-routing of highway.
Section 4(f) Old Wire Road	No feasible and prudent avoidance alternative; re-routing of highway.
Historic Structures	Impacts to Old Wire Road, which was determined eligible for June 2018.
Archaeological Sites	597 acres shovel tested in 20 meter transects. 4 sites identified for mitigation. An additional 108 acres will be surveyed for the project.
Benefits/Mitigation	Improved access and travel patterns, improved travel times, improved services, provides connectivity to the planned intermodal port and driver of economic development.

Note: Detailed table can be viewed on the project website

PROJECT DETAILS

RIGHT OF WAY

- **All Right of Way acquisition would be completed in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended**

NEXT STEPS

* The first project between Highway 22 to H Street includes clearing and grubbing only, and has been environmentally cleared by FHWA, with construction to begin in Fall 2022. All work on this project from Highway 22 to H Street is within existing ROW that was previously acquired.

Thank You For Attending!

NOTICE OF NONDISCRIMINATION: The Arkansas Department of Transportation complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion (not applicable as a protected group under the Federal Motor Carrier Safety Administration Title VI Program), disability, Limited English Proficiency (LEP), or low-income status in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden Section Head - EEO/DBE (ADA/504/Title VI Coordinator), P. O. Box 2261, Little Rock, AR 72203, (501)569-2298, (Voice/TTY 711), or the following email address: joanna.mcfadden@ardot.gov Free language assistance for Limited English Proficient individuals is available upon request.

Hwy. 22 – I-40 (Arkansas River) (I-49)

Job 040748

Public Meeting Presentation Script

SLIDE 1 – Welcome Slide

Hello, thank you for joining the Arkansas Department of Transportation, or ARDOT, for this Virtual Public Involvement Meeting for job 040748, to discuss the proposed revised design plans for Interstate 49 or I-49, between Highway 22 in Sebastian County and I-40 in Crawford County.

Please note, this is a listen only presentation, and you can pause this presentation at any point to allow more time to view the slides.

SLIDE 2 – Public Meeting Agenda

This is a brief presentation pertaining to the proposed revised design plans for the I-49 Project. We will cover the following material:

- Project Location,
- Project History,
- Purpose of the Project,
- Project Details,
- Next Steps,
- Public Involvement Meeting Dates, and
- How to provide comments and feedback.

SLIDE 3 – Project Location

ARDOT, in cooperation with the Federal Highway Administration, is preparing a draft re-evaluation of the Final Environmental Impact Statement and refining the Selected Alignment for a new section of I-49. The new section is a critical connection between Highway 22 in Sebastian County and I-40 in Crawford County, a length of approximately 14.4 miles. The red line on the map is the Selected Alignment for the project.

SLIDE 4 – Project History

This section was originally part of a larger U.S. 71 environmental study. The study extended from Highway 70 in DeQueen, Arkansas to I-40 near Alma, Arkansas, encompassing approximately 125 miles. The proposed I-49 Corridor is part of a congressionally designated High Priority Corridor (HPC) running from Shreveport, Louisiana to Kansas City, Missouri. A Final Environmental Impact Statement

Hwy. 22 – I-40 (Arkansas River) (I-49)

Job 040748

Public Meeting Presentation Script

was prepared and a Record of Decision was issued in December 1997, which screened multiple corridors, evaluated multiple alignments within a preferred corridor, and ultimately identified and approved a Selected Alignment for a new location, four-lane highway in western Arkansas.

SLIDE 5 – Project History (continued)

In 2018, an I-49 Alternative Delivery Study was conducted which evaluated alternative project delivery methods and toll feasibility for the project. The study was adopted by the Arkansas State Highway Commission in November 2018 and determined that tolling was not a viable option. A public meeting was held in April 2018. Materials presented included the project location, schedule, potential environmental impacts, tolling, and project schematics. Overall, there were 201 attendees at this meeting and 63 comments received. An additional Public Meeting was held in March 2022. Materials presented included the project location, schedule, environmental constraints, and project schematics. There were 244 attendees and 33 comments were received after this public meeting. ARDOT reviewed comments received during both public meeting comment periods from citizens, public officials, and public agencies, and the majority of comments from each meeting support this section of I-49. Since the review of public feedback, the project team has been working on more detailed design and environmental studies for the Selected Alignment.

SLIDE 6 – Project Purpose

The purpose of this project is to improve system linkage for a north/south national interstate corridor, accommodate safe travel, and improve connectivity.

SLIDE 7 – Typical Section

The new location facility would be constructed as a four-lane divided facility with four 12-foot mainlanes (two in each direction), an approximately 80-foot median between the inside edges of travel lanes, and 6-foot inside and 10-foot outside shoulders. The design speed for the mainlanes is 70 miles per hour.

Hwy. 22 – I-40 (Arkansas River) (I-49)

Job 040748

Public Meeting Presentation Script

SLIDE 8 – Typical Section – River Bridge

The new river bridge would be constructed as a four-lane divided bridge with four 12-foot mainlanes (two in each direction), an approximately 14-foot median between the inside edges of travel lanes, and 6-foot inside and 10-foot outside shoulders.

SLIDE 9 – Typical Section – Bridge at Cross Streets and Creeks

New bridge facilities over cross streets and creeks would be constructed as four-lane divided bridge with four 12-foot mainlanes (two in each direction), an approximately 80-foot median between the inside edges of travel lanes, and 6-foot inside and 10-foot outside shoulders.

SLIDE 10 – Selected Alignment

The proposed project would generally follow the centerline alignment of the Selected Alignment from the 1997 Final Environmental Impact Statement or FEIS. Interchanges are proposed with ramps at Highway 22, Gun Club Road, and Clear Creek Road. At I-40 a fully directional interchange with direct connect ramps is proposed. Proposed grade separated intersections without ramps, are proposed for Thornhill Street, State Highway 162 (Henry Street), Union Pacific Railroad (UPRR), and Highway 64 to maintain local access.

SLIDE 11 – Project Updates

Since the March 2022 Public Meeting, there have been notable revisions to the design of the Selected Alignment. These updates are detailed by the blue stars on the map graphic you see on your screen, and include: construction of a 2,700' embankment instead of bridge in the river valley in order to produce a more cost efficient design, an added southbound left turn lane to State Highway 59 to Gun Club Road due to refined design, the addition of the Westville Overpass in the form of a new bridge with a modified driveway on the Northwest corner that resulted from feedback from previous public meetings, an added driveway and box culvert crossing Mays Branch that resulted from feedback from previous public meetings, a reduction in the length of improvements along Clear Creek by approximately 800 feet in order to reduce impact on the community and contribute to a more cost efficient design, and the addition of an extended box culvert to replace the existing box culvert under Henry Street, also known as State Highway 162, which was refined due to feedback from previous public meetings.

Hwy. 22 – I-40 (Arkansas River) (I-49)

Job 040748

Public Meeting Presentation Script

SLIDE 12 – Environmental

Environmental studies are being conducted for the I-49 Project. The re-evaluation of the 1997 Final Environmental Impact Statement is underway to support environmental clearance in accordance with the National Environmental Policy Act, or NEPA. As part of this re-evaluation, existing resources are compared with previously documented results in the U.S. 71 Relocation Project FEIS that included this section of I-49 from I-40 to Highway 22.

An Environmental Constraints Map was developed to help planners and engineers determine the least impactful method to fulfill the Purpose of the project. The map can be viewed on the project website. Some of the major known constraints include Springhill Park, Fort Chaffee Military Reservation, various wetland and water features, Old Wire Road, which is listed on the National Register of Historic Places, a railroad crossing, farmland, and crossings of the 100-year floodplain. Environmental studies for this project are ongoing.

SLIDE 13 – Environmental

A table has been prepared that summarizes the preliminary impacts and benefits associated with the construction of I-49. The preliminary impacts and benefits table can be viewed on the project website. While every effort has been made to avoid and minimize impacts during project development, and additional efforts have been made to further refine the design during the re-evaluation, there is not an alternative that avoids all impacts.

The Selected Alignment best maximizes the benefits from the project while minimizing the negative impacts to the greatest extent possible.

SLIDE 14 – Right of Way

All right of way acquisition would be completed in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended.

SLIDE 15 – Next Steps

Following this public meeting, the project design will be refined per public input, environmental analyses will be completed, and the draft re-evaluation will be finalized and sent to FHWA for review

Hwy. 22 – I-40 (Arkansas River) (I-49)

Job 040748

Public Meeting Presentation Script

and approval. If there are no major issues from the environmental analysis that cannot be addressed in a reasonable time frame, final environmental clearance for the project between Highway 22 and I-40 is expected in Fall 2022. If granted, right of way acquisition can then begin with construction anticipated to begin mid-2025.

The project between Highway 22 to H Street includes clearing and grubbing only and has been environmentally cleared by FHWA, with construction beginning in Fall 2022. All work on this project is within existing right of way that was previously acquired.

SLIDE 16 – Public Involvement Period

There will be an in person meeting on _____. Project information will be available _____. Comment Forms will be available and accepted during that time period.

SLIDE 17 – Comments

Comment forms and additional resources can be found at ARDOT DOT GOV forward slash Public Meetings. All statements, comments and questions received during the comment period will be given careful consideration.

SLIDE 18 – Contact Us

For additional questions concerning this project, or if you need help submitting your comment form, please contact us at Environmental PI meetings @ ARDOT DOT GOV. You can also reach us at the phone number on your screen, 501-569-2281. To mail-in your comment forms, send the form to the address on your screen.

SLIDE 19– “Thank You”

We sincerely appreciate your participation and interest concerning the I-49 Project. Your questions, comments, and concerns will receive careful consideration.
Thank you, this concludes the presentation.

PROJECT FACT SHEET

Highway 22 to I-40 (Arkansas River) (I-49)
Sebastian and Crawford Counties, Arkansas

Project Description

The Arkansas Department of Transportation (ARDOT), in cooperation with the Federal Highway Administration (FHWA), is progressing to the next phase of project development for the construction of Interstate 49 (I-49) from Highway 22 in Sebastian County to I-40 in Crawford County, a length of approximately 14.4 miles.

Project Purpose & Need

The purpose of this project is to improve system linkage for a north/south national interstate corridor, accommodate safe travel, and improve connectivity.

Project Background

This section was originally part of a larger corridor environmental study known as the “U.S. 71 Relocation.” The study extended from Highway 70 in DeQueen, Arkansas to I-40 near Alma, Arkansas, encompassing approximately 125 miles. The proposed I-49 Corridor is part of a congressionally designated High Priority Corridor (HPC) running from Shreveport, Louisiana to Kansas City, Missouri. A Final Environmental Impact Statement (FEIS) was prepared and a Record of Decision was issued in December 1997, which screened multiple corridors, evaluated multiple alignments within a preferred corridor, and ultimately identified and approved a Selected Alignment for a new location, four-lane highway in western Arkansas.

ARDOT developed a more detailed preliminary roadway schematic design, and conducted public involvement meetings in 2018. An Interstate 49 Alternative Delivery Study was developed which evaluated alternative project delivery methods and toll feasibility for the project, but ultimately determined that a public-private partnership based on tolling this section is not a viable option. The study was adopted by the Arkansas State Highway Commission during their November 14, 2018 meeting.

In March 2022, an additional public involvement meeting was held to present the continuation of the project and Selected Alignment. ARDOT reviewed comments received during both public meeting comment periods from citizens, public officials, and public agencies, and the majority of comments from each meeting support this section of I-49. Since the review of public feedback, the project team has been working on more detailed design and environmental studies for the Selected Alignment.

Project Updates

Since the March 2022 Public Meeting, there have been revisions to the design of the Selected Alignment. These updates are detailed by the blue stars on the corresponding map on the next page, and include construction of a 2,700' embankment instead of bridge in the river valley, an added southbound left turn lane to State Highway 59 to Gun Club Road, the addition of the Westville Overpass in the form of a new bridge with a modified driveway on the northwest corner, an added driveway and box culvert crossing Mays Branch, a reduction in the length of improvements along Clear Creek by approximately 800 feet, and the addition of an extended culvert under State Highway 162 also known as Henry Street.

Timeline

The next phase of project development will include completing and obtaining agency approvals for the re-evaluation of the 1997 FEIS, preparing required agency construction permits, and developing final design and construction plans for a non-tolled facility from Highway 22 to I-40.

How to Get Involved

Lindi Miller, HNTB
I-49 Public Involvement Representative
Email: limiller@hntb.com
Website: www.ardot.gov/I-49

PROJECT LOCATION MAP

Highway 22 to I-40 (Arkansas River) (I-49)
Sebastian and Crawford Counties, Arkansas

Extended box culvert to replace existing box culvert under Henry St. This revision was made based on feedback from previous public involvement meetings.

Reduced length of improvements along Clear Creek to reduce impact on community and produce a more cost efficient design

Added Westville overpass. This revision was made based on feedback from previous public involvement meetings.

Added driveway and box culvert across Mays Branch. This revision was made based on feedback from previous public involvement meetings.

Added SB left turn lane to SH 59 due to refined design.

Construct 2,700' embankment instead of bridge in river valley in order to produce a more cost efficient design for the project.

PRELIMINARY IMPACTS & BENEFITS

Highway 22 - I-40 (Arkansas River) (I-49)
Sebastian and Crawford Counties, Arkansas

Job 040748

Resource Categories	Preliminary Impacts and Benefits within Project Footprint
Right of Way	1,546 acres within project footprint. Exact impact numbers to be determined as project advances through detailed design.
Residential Relocations	21
Commerical Relocations	0
Community Impacts	No disproportionately high adverse impacts anticipated to environmental justice populations, improved access, improved travel times, 0 impacts to public facilities, impacts to community cohesion at Waterfront Park neighborhood and at Clear Creek Road.
Wetlands/Waters	Permanent fill impacts are approximately 12 acres (20,430 linear feet) to water features and approximately 31 acres to wetland features. Impacts to be revised as project advances through detailed design.
Floodplain	No net rise in 100-year floodplain for Arkansas River. Preliminary study indicates less than 1 foot rise at Frog Bayou at I-49/I-40 interchange. Appropriate coordination with local floodplain administrator and FEMA to be determined based on more detailed design.
Farmland	1,027 acres within the project footprint. Coordination with Natural Resources Conservation Service required.
Habitat	<ul style="list-style-type: none"> • Forest: Approximately 344 acres within project footprint • Pasture: Approximately 631 acres within project footprint • Herbaceous: Approximately 55 acres within project footprint • Sapling/Shrub: Approximately 55 acres within project footprint Exact impact numbers to be determined as project advances through detailed design
Threatened and Endangered Species	Species within project footprint - effect calls are preliminary and will be finalized after coordination with U.S. Fish and Wildlife Service: <ul style="list-style-type: none"> • Gray Bat - Not Likely to Adversely Affect • Indiana Bat - Not Likely to Adversely Affect • Northern long-eared bat - Not Likely to Adversely Affect • Ozark big-eared bat - Not Likely to Adversely Affect • Eastern black rail - Not Likely to Adversely Affect • Piping plover - Not Likely to Adversely Affect • Red knot - Not Likely to Adversely Affect • American burying beetle - Not Likely to Adversely Affect • Scaleshell mussel - No Effect or Not Likely to Adversely Affect • Geocarpon minimum (succulent plant)- No Effect • Monarch butterfly - Not Likely to Adversely Affect • Missouri bladderpod - No Effect
Regulated Facilities	1 natural gas wellhead - requires plug and abandonment.
Noise	Minor noise impacts anticipated. One potentially feasible and reasonable noise wall in the southeast corner of the I-40 interchange will be studied further.
Air Quality	None anticipated. Crawford and Sebastian Counties are in attainment for all National Ambient Air Quality Standards.
Visual	Minor impacts to the existing visual harmony are anticipated at Springhill Park, Alma Drive, Waterfront Rd., and Harmer Road.
Section 4(f) Springhill Park	No feasible and prudent avoidance alternative. Impacts to 4 abandoned campsites and water fountain; visual and noise impacts; mitigation includes re-routing of hike/bike trail.
Section 4(f) Old Wire Road	No feasible and prudent avoidance alternative; re-routing of Old Wire Road; visual impacts.
Historic Structures	Impacts to Old Wire Road, which was determined eligible for the National Register of Historic Places in June 2018.
Archeological Sites	597 acres shovel tested in 20 meter transects. 4 sites identified for further testing and 2 sites identified for mitigation. An additional 108 acres will be surveyed for the proposed project.
Benefits/Mitigation	Improved access and travel patterns, improved travel times, improved access/mobility for emergency services, provides connectivity to the planned intermodal port facility, provides supply chain resiliency, and driver of economic development.

Job 040748 – I-49

Public Meeting Outreach Plan

Public Involvement Period: September 23 – October 14, 2022

Outreach Schedule

Date	Before/After Public Meeting Event	Method
Thurs., August 4	-56 days	<ul style="list-style-type: none"> • <u>Preliminary Meeting</u> with ARDOT to discuss outreach materials and preliminary schedule
Mon., August 15	-45 days	<ul style="list-style-type: none"> • <u>Public Meeting Materials</u> sent to ARDOT for review
Thurs., August 18	-42 days	<ul style="list-style-type: none"> • <u>Logistics Meeting</u> with ARDOT to review <u>Public Meeting Materials</u>
Mon., August 29	-31 days	<ul style="list-style-type: none"> • HNTB to address comments on Public Meeting Materials + update Public Meeting Materials
Tues., September 6	-23 days	<ul style="list-style-type: none"> • <u>Submit Spanish display ad to newspaper: La Prensa</u> • <u>Send email invite</u> to stakeholders, and Public Officials notifying of Public Meeting dates
Fri., September 9	-20 days	<ul style="list-style-type: none"> • <u>Mail letters to public officials and stakeholders</u>

SUBJECT: Notice of Public Officials Meeting – Thursday, September 29, 2022
Notice of Public Involvement Meeting
ARDOT Job 040748
Hwy. 22 – I-40 (Arkansas River) (I-49)
Sebastian and Crawford Counties

Dear Senator Fulfer:

The Arkansas Department of Transportation will conduct a Public Officials Meeting to discuss the proposed revised design plans for the development of I-49 between Hwy. 22 and I-40 in Sebastian and Crawford counties. The Public Officials meeting will be held on **Thursday, September 29, 2022, from 11:00 a.m. to 12:30 p.m. at the First Baptist Church Alma (Family Life Center) located at 211 N. Mountain Grove Rd., Alma, AR 72921.** You are invited and encouraged to attend this meeting and offer your views concerning the proposed project.

To access the online public meeting materials, visit the www.ardot.gov/publicmeetings website. At the website location, scroll down to view the public meeting of your interest. The viewing of project information will be available on the Department's website beginning Friday, September 23, 2022, through Friday, October 14, 2022, and comments will be accepted until 4:30 p.m. on Friday, October 14, 2022.

After the Public Officials Meeting, a **Public Involvement Meeting** will be held on **Thursday, September 29, 2022, from 4:00p.m. to 7:00p.m. at the same location.**

This "open house" meeting is for interested citizens to view displays, ask questions, and offer comments about the proposed project. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting will be appreciated.

If you have any questions, please feel free to contact me via phone at (501) 266-9390 or by email at limiller@hntb.com.

Sincerely,

Lindi Miller, HNTB Corporation

Subject: Notice of Public Officials Meeting – Thursday, September 29, 2022 + Social Media Toolkit
Attachments: ARDOT_PM_SM_GRAPHIC_2.png; I49 PM 2 Flyer.pdf

Greetings,

The Arkansas Department of Transportation will conduct a Public Officials Meeting to discuss the proposed revised design plans for the development of I-49 between Hwy. 22 and I-40 in Sebastian and Crawford counties. The Public Officials meeting will be held on **Thursday, September 29, 2022, from 11:00 a.m. to 12:30 p.m. at the First Baptist Church Alma (Family Life Center) located at 211 N. Mountain Grove Rd., Alma, AR 72921.** You are invited and encouraged to attend this meeting and offer your views concerning the proposed project.

To access the online public meeting materials, visit the www.ardot.gov/publicmeetings website. At the website location, scroll down to view the public meeting of your interest. The viewing of project information will be available on the Department's website beginning Friday, September 23, 2022, through Friday, October 14, 2022, and comments will be accepted until 4:30 p.m. on Friday, October 14, 2022.

After the Public Officials Meeting, a **Public Involvement Meeting** will be held on **Thursday, September 29, 2022, from 4:00p.m. to 7:00p.m. at the same location.**

This "open house" meeting is for interested citizens to view displays, ask questions, and offer comments about the proposed project. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting will be appreciated.

To aid in your efforts to spread the word, please consider sharing the attached social media graphic and flyer.

If you have any questions, please feel free to contact me via phone at (501) 266-9390 or by email at limiller@hntb.com.

Sincerely,
