

PROJECT SITE PLAN AND DESIGN INFORMATION COVERSHEET

FORM EVID-08

PROPOSER NAME (ENTITY): _____

PROPOSED PROJECT SITE ADDRESS: _____

REQUIRED PROPOSAL MATERIALS TO BE ATTACHED TO THIS COVERSHEET:

1. **Cover Letter** providing high-level proposal description and site-specific construction activities expected to take place if awarded.
2. **Site Plan** indicating to-scale schematic plan for implementation of EV charging station infrastructure at the project site. A site survey is **NOT** required at this time. Minimum details below must be illustrated. Failure to disclose information may be cause for withdrawal or deferral of request for funding.
 - A. Within 50 feet of proposed EV charging station equipment, detail:
 - i. Permanent buildings and structures,
 - ii. Existing parking areas,
 - iii. On-site fire hydrants,
 - iv. On-site water system,
 - v. Show any designated ADA accessible spaces.
 - B. Electric Utility, including illustration of (1) transformer location and (2) termination point, (3) show nearest 3-phase source (if known).
 - C. Illustrate proposed EV charging station equipment locations on site, including location of on-site electric service equipment (e.g., power meter, transformer, switch gear, etc.).
 - D. Note any areas within the EV charging station site devoted to quality-of-life amenities.
 - E. All points of ingress or egress to the site from adjacent streets or properties and approximate dimensions of drives.
 - F. North arrow, scale, date, legend
